WHETHER you spend the holiday at home or abroad—among the mountains or at the shore—everywhere you will find the most healthful refreshment in a glass of ice-cooled White Rock. The ideal beverage for a summer's day either alone or as a blender. The purest of all effervescent mineral waters—first in popular favor where the prime requisite is excellence.

Served and sold everywhere.

GENTLE HINT TO CONGRESS

President Taft's Reference to Position of Republican Majority

MAY BE RELEGATED TO OPPOSITION

Remarks Apparently Inspired by Dealings With Tariff Bill

New Haven, Conn., June 30.—President Taft paused in the course of an after-dinner speech to 1,800 graduates of Yale, gathered at the annual alumni feast today, to issue a serious note of warning to congress and the leaders of the Republican party. The President declared that if the party which placed him in power and had controlled the government for so many years failed now to live up to its promises and the expectations of the people, it would be relegated to the position of a minority opposition.

The President had been speaking humorously of his own college days here under the Elms, and the proverbial sources of merriment, a fact which made his sudden change to the serious tone of the important utterance upon national affairs the more impressive to his hearers.

The President spoke extemporaneously, as usual, and his utterances as to the duty of the party, of which he is nominally the head, seemed the result of a sudden impulse rather than of studied intention. The President made no effort to explain his warning. The Yale men caught his meaning, and the significance of his remarks, coming at this time of the tariff debate, however, and they stood up on their feet and cheered for several minutes. Mr. Taft had been speaking of Secretary of War Dickinson, a Democrat upon whom Yale today conferred an honorary degree. He taunted the Democratic party with the best of good humor as to its present day condition, and this led him into the declaration as to his party.

"Just to show," the President concluded, amid laughter, "that we have troubles of our own."

Democratic Classification

After paying tributes to others whom the university today conferred honorary degrees, the President came down to Secretary Dickinson and said: "You went south of the Mason and Dixon to get a secretary of war to give a degree to. Well it is well you did, because he is going to build the Panama canal, and other universities will follow where you got in early. One of the difficulties that has confronted Brother Dickinson out in Chicago, where he has a temporary residence, was a discussion as to what constituted an orthodox Democrat, and whether really he ought to be counted as a Democrat if he allowed himself to go into a Republican cabinet. Well, when you come to discuss what is a Democrat these days, you are presented with very much the difficulty that I have before me now in giving certain rules for the construction of the pure food law as to what whiskey is. There is 'straight' whiskey and there is 'rectified' whiskey, and there is 'imitation' whiskey. Now I speak with a good deal of hesitation as to whether my friend Dickinson is a (straight) Democrat or a 'rectified' Democrat. I would not dare to say in his presence that he was an 'imitation' Democrat. The truth is, and, speaking seriously, I consider myself most fortunate that I was able to obtain for that important place in my cabinet a man who represented the highest ideals of the south, who knew no section in his patriotism, and whose coming into the cabinet was significant of the friendliness of a large element in that southern section, that it is in my heart to bring close to the north.

Hint to Republicans

"Now, my dear friends, in suggesting differences among Democrats, I am far from ignoring some difficulties that there are on our own side. I remember, in 1904, that Mr. Chas. Francis Adams gave what I may call a perfectly good Adams reason for the election of a Democratic candidate over the Republican candidate. He said that one of the essentials of a successful free government was an able, patriotic and efficient opposition, and that as the Democratic party had utterly failed in reaching that ideal he was in favor of putting the Republican party in that place. I now venture to say that while that may not be the reason which will move the American people, it is true that if the Republican party does not live up to its promises, and what the people expect of it, it will be relegated to a position like that of 'His Majesty's opposition,' and therefore I may say by way of caveat that we have troubles of our own."

President's Busy Day

The President spent a busy and interesting day as the honor guest at the Yale commencement exercises. In cap and gown he walked in the dignified procession of graduates, fellows and faculty to the commencement ceremonies in Woolsey hall. He attended a meeting of Yale Corporation, spoke at the midday dinner of the Alumni, presided over a meeting held for the purpose of arranging for a memorial for Yale men, who died on both sides of the civil war, stood for nearly two hours with President Hadley at the commencement reception and rushed tonight from a meeting of the Skull and Bones to board his private car, which was attached to the midnight train for Washington.

The President will reach the capital at 9.40 a. m. tomorrow.

The Skull and Bones is a secret society founded by the President's father when he was a student at Yale. All the Tafts have belonged to it.

Today's commencement was notable in many ways. President Hadley announced the receipt during the past year of gifts to the university amounting to $1,000,000. Of this sum $150,000 came from the general education board. The allotments had been conditioned upon the receipt of $850,000 from other sources.

Among those upon whom honorary degrees were conferred were Secretary Dickinson, Rear-Admiral Chas. S. Sperry, of the navy, and President Lowell, of Harvard University.

SPLIT UP TARIFF BILL

Suggestion Offered by Blind Senator From Oklahoma—Also Suggests Veto

Washington, June 30.—In the United States Senate today Mr. Gore, the blind senator from Oklahoma, made the novel suggestion that the finance committee should report each schedule of the tariff bill as a separate bill, so that senators and representatives might vote against the portions of it they did not approve, while voting for the parts acceptable to them. The suggestion was in the form of a resolution, and in urging its adoption Mr. Gore argued that it would have the additional merit of affording the president an opportunity to vote any schedule not satisfactory to him. He declared that the president ought to vote the pending measure when it reaches him. On a suggestion from Mr. Gallinger the consideration of the measure was postponed.

Sudden Death of Miner

Fernie, B. C., June 30.—John Caldwell, a miner working at the Coal Creek mines, died this morning, presumably of heart failure, in No. 2 mine. Caldwell was working with timbermen on the night shift, and was pulling a sprag in a car when he fell, dying shortly afterwards. The mine was idle today.

ON CHARGE OF GRAND LARCENY

Wealthy Rancher at Whonnock Said to Have Stolen on Great Scale

Vancouver, June 30.—The capture of E. S. Kirkconnell, a farmer at Whonnock, is wanted in New York City on a charge of grand larceny, was effected yesterday at Whonnock by Detective Wilmer, of New York, Police Inspector Mulhern and Provincial Constables Smith and Monro. Kirkconnell offered no resistance. After his incarceration in the city jail, he communicated with Deacon, Deacon & Wilson, barristers, whom he engaged to fight extradition for him.

It is alleged that in the spring of 1908 Kirkconnell and his brother committed the most colossal theft in the history of the Atlantic coast, boldly sailing away with a whole ship load of goods obtained under false pretenses from Eastern merchants. The vessel sailed for Honduras and arrived safe from pursuit with little misadventure. It was some time before the authorities were made aware of the fact that the alleged thieves were under way. Then began a pursuit which finally ended in capture, though not till the ship containing the stolen goods had landed them safely.

Both alleged thieves were apprehended in Honduras, and one of them, said to be the man captured here, escaped by risking his life at night by diving from the boat on which he was being brought to New York.

Since this escape the search has never been given up. Several weeks ago Detective Wilmer got trace of Kirkconnell, and finally located him in this city. He arrived quietly a few days ago and confirmed his suspicions and the arrest followed last night.

Kirkconnell is the owner of a splendid ranch at Whonnock now, and is reputed to be very wealthy. He refuses to discuss his arrest and has been remanded for extradition proceedings.

GOOD ORE FOUND

New Ledge Discovered Near Swede Group on Queen Charlotte Islands

Vancouver, June 30.—With 45,000 feet of lumber and some miscellaneous cargo, the steamer Amur arrived from Northern British Columbia ports this morning and reported a find of valuable ore near the Swede group at Locke Harbor, Queen Charlotte Islands. The ore is arsenical iron carrying gold in large proportion, and a big ledge has been uncovered. Several claims have been staked, Messrs. Beresford, Gowan, Harris and the Swede boys having decided that the ledge is worth working.

Among the passengers was Alexander Lyons, who has been looking for a site for a fish-curing station and cold storage plant. He represents British trawling concerns, and called at Pacofi, the headquarters of the Pacific Coast Fisheries Company at Selwyn Inlet. Mr. Lyons looked over several sites.

When the Amur goes north again, she will have among her passengers, Captain Bellamy, the well known mining man, who will conduct a party of American capitalists to Ikeda Bay with a view of purchase.

Percy Sellen in Police Court.

Winnipeg, June 30.—In the police court this morning Percy Sellen, the Toronto runner, was dismissed by Magistrate Daly upon a charge of fraud preferred against him by James Bell, a marathon race promoter, who brought Sellen here to run Paul Acoose, the Grenfell Indian. Bell did not appear to press the complaint.

CHUNG'S STORY IS RIDDLED

Expressman Logan Says He Gave Directions About Carriage of Trunk

POLICE HAVE HOPES OF MORE EVIDENCE

Prof. J. E. Gardner Is Asked to Give Assistance as Interpreter

New York, June 30.—The complacency of Chung Sin, once the roommate of Leon Ling, wanted for the murder of Elsie Sigli, on June 8th, went all to pieces this afternoon, when Arthur Logan, an expressman, walked into the cell where Chung Sin is held, more as a material witness, and briskly shouted, "Hullo." Logan is the man who carried the trunk containing the body of the girl from Leon's room, over the Eighth avenue restaurant, down stairs on the day of the murder. He has told the police that Chung Sin is one of the men he saw on the top floor of the house. Chung Sin, on the contrary, has sworn by all his ancestors that he never saw the trunk packed or moved.

"You are the man," Logan said in Chung Sin's presence today, "who told me to take the trunk down carefully. There was another slim fellow in the room, the same that came over to the office half an hour before he gave me the order to call for the trunk."

"All mistake," protested Chung Sin, "never see you before."

The Chinaman's voice broke and he shook as if in fear as Logan was led out positive in his identification. Chung was not kept waiting long before he had another visitor, this time Martin Luria, the chauffeur who drove a Chinaman and a trunk from the Harlem laundry to a chop suey restaurant in Newark on the morning of June 10th. The police had a theory that Chung Sin might have been the fare, and not Leon Ling, but Luria could not identify Chung Sin, and still believes that it was Leon he had in the taxicab.

A letter from Chung Sin, written since his arrest, to the society of the Four Brothers, was translated at the district attorney's office. He protests that the murder was done by one man, and that therefore only the murderer should be held, denounces the authorities and implores the aid of all the members in freeing him.

The police believe more and more that little reliance can be placed in any of the various rewards and cooperation promised by the clans of Chinatown, and accordingly District Attorney Jerome today wrote John Endicott Gardiner, professor of oriental languages and literature in the University of the Pacific at San Jose, asking his co-operation in the case as a trustworthy interpreter. With no outside clues to bring the police nearer to Leon Ling, they are working on the theory that a bird in the hand is worth two in the bush. In other words, by bringing home to Chung Sin that each contradiction in his testimony only mires him deeper, it is hoped that he may eventually tell the truth. The greatest hope of getting Leon is that his pal will weaken under pressure.

LORD CHARLES IS ALARMIST

Lays Down Big Programme as Necessary for Navy Completion

London, June 30. — Lord Charles Beresford appeared before the London chamber of commerce this afternoon in his favorite role of a candid critic of the naval administration. The effect of his speech, however, was to a certain extent discounted by the apparently authoritative announcement that the admiral has failed to establish his case before a committee of the cabinet and experts appointed at his own request, which has been sitting for some weeks past. Nevertheless, the admiral again declared that the situation in the navy was more serious than was generally known, and he said that in order to put the Empire in a state of safety by March, 1914, Great Britain would have to build ten battleships, 18 second class cruisers, 18 cruisers for the protection of commerce, 24 vessels of a new type larger than torpedo boat destroyers and four floating docks, as well as replenish the depleted stores of ammunition, coal, etc., and add 16,000 men to the personnel. This programme would necessitate an expenditure of from $275,000,000 to $300,000,000.

Cholera Record

St. Petersburg, June 30.—The municipal hospitals received 101 cholera cases and 32 suspects during the 24 hours ended at noon today. During this time there were also 28 deaths.

G. T. P. Offices At Winnipeg

Montreal, June 30.—A further move in the decentralization of the Grand Trunk Pacific work from Montreal, and the collection of the operating and other staffs at Winnipeg will be made on July 1, when Mr. J. G. Swalwell, for many years travelling auditor of the Grand Trunk, will take up the duties of local auditor in charge of traffic receipts with headquarters at Winnipeg.

VALUABLE ORE

Carbonates Found in South Belt Mine at Rossland Are Profitable to Lessees

Rossland, B. C., June 30.—The lessees of the Blue Bird mine in the south belt, have made an important find of carbonate ore in that mine. In six days two men took out $400 worth of ore a day, or $2,400 in six days.

Lyman Carter, president of the Blue Bird Mining Co. is here from Spokane endeavoring to purchase the lease on behalf of the company. The find is the most important yet made in the south belt.

The Le Roi mine will resume operations eary in July, according to a statement made by Le Roi officials.

Calhoun Indictment Stands.

San. Francisco, June 30.—Judge Lawlor today overruled a motion to set aside the second indictment against Patrick Calhoun, president of the United railroads, whose trial on a charge of offering a bribe to a supervisor resulted in a disagreement. Attorneys for Calhoun then made a motion for a change of venue. The hearing on this motion was set for July 8.

Saloon Wrecked

Tucumcari, N. M., June 30.—The anti-saloon campaign at Endoc, N. M., came to a close last night, when a band of masked men mounted and armed rode their horses through the doors of a saloon and shot up the place until mirrors and glass ware were completely destroyed. The riders crashed into the hall, where a dance was in progress, and wrecked the dance hall and bar.

Caruso Engaged Again

Paris, June 30.—Signor Gatti Gazzazi, of the Metropolitan opera, New York, and Otto H. Kahn today signed a new contract with Enrico Caruso, the tenor, extending his engagement for three years. Caruso services for the Metropolitan are thus ensured for five years to come. Caruso, who is in Paris, says his health never was better. He believes that recent slight operation on his vocal chords has improved his voice.

BRITISH VESSEL IS SUSPECTED

May Be Preparing to Carry Munitions of War to San Domingo

Washington, June 30.—Suspected of preparing for a filibustering expedition to the island of San Domingo, the British steamship Ethel Wald, which has been lying in the Erie basin, Brooklyn, if she has not sailed already, is to be refused clearance papers, according to instructions sent to the collector of the port of New York today by Ormsby McHarg, secretary of commerce and labor. The vessel, it was reported, has been lying close to the firearms warehouse of Granchis and Bannerman. This aroused suspicion, and the circumstances were communicated to the state department here by Senor Sannon, the Haytien minister. One end of the island is occupied by Haytiens and the other by the Dominican republic, hence the minister's interest in the matter. Captain Browning, of the Ethelwald, is believed to be acting in conjunction with Giorgiana and Jimlnez, the Dominican politicians now said to be in the United States. It is thought that the plan was to have munitions of war carried to sea on the Ethelwald and then transferred to some other vessel.

New York, June 30.—The Ethelwald, a small and apparently harmless little steamer lying at the outer edge of the forest of shipping which skirts the south end Brooklyn water front, was held up by the United States customs officers tonight on suspicion that the vessel was about to engage in a filibustering expedition against the little West Indian republic of San Domingo. The order to detain the steamer was received this evening from Assistant-Secretary McHarg, of the department of commerce and labor at Washington, and was promptly executed by William Loeb, collector of the port of New York.

Within an hour of the receipt of the order, Collector Loeb had Chief Inspector Peter Bradley taking two customs officers to the little ship. They were placed aboard, with orders not to let her sail. The Ethelwald was lying with full steam up, with a considerable list to port, tied up at the end of a long pier at the foot of 26th street, in South Brooklyn.

The Ethelwald is a steamer of little more than 500 tons, and has been around New York for several months. She was said to have loaded at Fracis and Bannerman's wharf.

Jose St. Pierre Giorani, whom the Washington advices implicated in alleged filibustering, was formerly consul general in New York from San Domingo, and was later the agent of a formidable conspiracy against San Domingo. He was convicted in New York and sentenced to six months' imprisonment.

General Guan Jiminez was a former priest of San Domingo, and leader of the plot to overthrow the little republic.

Customs Returns Show Growth

Ottawa, June 30.—The customs returns for the month of June amounted to $4,831,658, an increase of $1,124,429 over the same month last year. For the first three months of the fiscal year collections show an increase of $2,364,120 over those of last year.

Catholics in Russia

Minsk, Russia, June 30.—A Catholic priest of Minsk, named Zenkenichat, has been condemned to imprisonment for six months and to be deprived of his parish for having baptized the child of a Catholic father and an orthodox mother, according to the rites of the Catholic church. The father of the child was sentenced to one month's imprisonment.

ARE TOO FREE WITH BRAND

Mayor McClellan Severely Rebukes Police Officials of New York

UNCONVICTED BOY IN ROGUES' GALLERY

Finding Justifies Protest Entered by Justice Wm. J. Gaynor

New York, June 30.—After an investigation which began a month ago, Mayor McClellan tonight ordered one of the most severe shakeups in the history of the New York police department. The upheaval comes with the mayor's decision in favor of Geo. B. Duffy, the twenty-year old Brooklyn boy, whose pictures and measurements have been taken by the police, although the boy had never been convicted of a felony or misdemeanor.

The finding is a victory for Wm. J. Gaynor, of Brooklyn, a justice of the state supreme court, through whose efforts the Duffy case was brought to the mayor's attention. Justice Gaynor, who has been prominently mentioned as a probable Democratic candidate for mayor in the coming municipal elections, was subsequently sued for libel by Police Commissioner Theodore Bingham, who asks $100,000 damages. He bases his charges on Justice Gaynor's letters in the Duffy case. In his decision today Mayor McClellan not only ordered Duffy's picture and measurements removed from the rogues' gallery, but he censures Commissioner Bingham for his administration of the police department in Brooklyn and directs the removal of two important police officials. These demands are to be carried out within twelve hours after their receipt.

The mayor's orders are primarily to restore the former administration in Brooklyn under a deputy commissioner. Some time ago it was reduced to the rank of a precinct. This the mayor brands as an absolute failure. The officials to be removed if the mayor's orders are carried out are Deputy Commissioner Hansen and Daniel Slattery, Mr. Bingham's secretary. They are to be removed, according to the mayor's decision, "for implication in the Duffy case, when, as laymen fo the commissioner's staff, they should have been the first to check the grievance."

Hansen is further censured for abusive language, lack of control and inability to exercise judicial functions. Mr. McClellan directs that Assistant Corporation Counsel Itover should succeed Hansen and that Slattery's successor should be approved by him.

In regard to placing the photographs and measurements of unconvicted persons in the rogues' gallery the mayor says: "I am led to the conclusion that as mayor of the city of New York I should not order the police to stop taking photographs of people arrested and accused of crime, or who have been indicted by grand juries. That grave injustice may occur, the Duffy case has demonstrated. But I feel that it is not the taking of the photographs that has given rise to the injustice, but the inefficiency and maladministration of the police department in the borough of Brooklyn."

In order that there may be no injustice in the taking of pictures hereafter the mayor directs that formal application to take such photographs first be made to First Deputy Commissioner Baker and Inspector McGafferty.

TIN PLATE STRIKE

Fifteen Plants of U. S. Steel Corporation Affected by Order to Stop Work

Pittsburg June 30.— Plants with a total capacity of 190 hot mills were crippled or entirely tied up at midnight by the strike order which went into effect of the union of sheet iron and tin plate mills of the United States Steel Corporation, according to the claims made by the officials of the Amalgamated Association of Iron, Steel and Tin Worwers. The total number of men on strike is estimated at 7,000. The strike is the outcome of the open shop order posted four weeks ago by the American Sheet and Tin Plate Co. at all its mills throughout West Virginia, Pennsylvania, Ohio and Indiana.

National President McArdle gave out the initial strike order at noon today. The majority of the American company's plants in Pittsburg are non-union and not affected.

Heavy Bank Clearings.

Winnipeg, June 30.—Clearing house returns for the month of June show an increase of more than ten million dollars as compared with the month of June last year.

Brandenburg Goes to Missouri.

St. Louis, Mo., June 30.—Detective Richard Boyce, of New York, today brings Broughton Brandenburg, acquitted there on the charge of obtaining money by forging Grover Cleveland's name, to stand trial here on a charge that he fraudulently enticed James Shepard Cabanne 3rd from his parents.

Wheat Grows Rapidly.

Winnipeg, June 30.—A very encouraging crop report was issued from the office of the grain department of the Canadian Pacific railway today. Wheat is generally from fifteen to twenty inches high, and the recent showers, which have been general throughout the west, have had the effect of causing very rapid growth. "Prospects never were better," is the general tone of the correspondence from every section.

LONG VACATION FOR CITY CHILDREN

Results of Many Examinations in Local Schools Are Announced

The brightness and freshness of a glorious June morning seemed to sympathise with the delight of the hundreds of children who yesterday bade a joyful good bye to books and lessons. In many of the schools there were closing exercises, and every available space was filled with the parents and older brothers and sisters who came to hear the singing and recitations, and to see the pretty sight of the happy young faces of nicely dressed children.

The first to assemble were the little ones from Kingston street, who had to hurry over to South Park school and finish their exercises before their big brothers and sisters in the larger school began. For it is quite impossible to crowd the children who occupy the five rooms of the enlarged school into one and entertain their parents at the same time.

The little people looked very pretty as they marched to their places to the stirring music played by Mr. D. A. Fraser. Their programme of nature and patriotic songs was beautifully rendered, the whistling and the anvil choruses giving variety, and showing that the boys appreciate music as well as the girls. The flower drill was as novel as graceful, and the recitations well chosen and nicely said.

When the children had finished, and the honor rolls and the promotion lists had been read, the principal, Miss E. G. Lawson, introduced Dr. Reid as a very old friend.

The rev. gentleman expressed his delight at being present, praised the children for the pleasure they had given all present. The work of the teachers was spoken of in sympathetic and appreciative terms, and the speaker concluded by wishing all a happy holiday.

When the applaus had subsided the Rev. E. A. Roberts told the boys they could teach the older people one lesson. He thought the audience might have been more generous with their clapping when the boys and girls recited and sang, for they had done splendidly. Then in a bright and pleasant way Mr. Roberts showed the little people that work was necessary to progress, and wished them a pleasant holiday.

The principal hoped those who had not gained promotion would not be disappointed. Everyone who was fit to enter the intermediate grade had been advanced, and those who were not fit would be hurt and not helped by being sent to attempt work they were not ready for. No promotions had been made among the children who remained in the Kingston street school, but when they returned after the holidays the boys and girls would be placed in the rooms best suited to them. The parents were thanked for their attendance and co-operation.

Two medals given by the Athletic Association were presented. Howard Watson won one for being second in the 75 yards race, and Frank Barton the other for taking a similar place in the 100 yards race.

South Park.

At eleven o'clock the pupils of South Park school took their places in the Assembly Hall, which was filled to its utmost capacity.

The principal, Mr. Pollock, thanked the parents and visitors for their attendance. The programme was not as long as he would have liked, but the last weeks of school had been so filled with examinations that but little time could be spared for preparation.

Miss Mabel Cameron presided at the piano, and both singing and recitations were very good.

Rev. Dr. Reid and Rev. T. W. Gladstone voiced the appreciation of the parents for the excellent work done in this large school.

At the North Ward school there were no general exercises. But in all the rooms the children entertained and interested their parents by school songs and exhibitions of every day work of the classes. It is the custom in this school to hold commencement day at the beginning of the term.

The Girls' Central.

The closing of the girls' school took place in the Pemberton gymnasium. It would be hard to imagine a lovelier sight than the girls presented as they filled the large hall.

The feature of the exercises was the chorus singing of the school. This was led by the singing instructor, H. J. Pollard, and one did not need to be a musician to appreciate the sweetness and expression with which the songs were rendered.

Trustees McNeill and Captain Mackintosh congratulated teachers and children on the result of the year's work and their excellent singing, and wished all a happy holiday. Trustee McNeill hoped that the girls would always prove genuine, that they would be rather than seem.

Mrs. Staneland sang "Marguerite," and was very heartily encored.

Bishop Perrin told the girls about the holiday tasks that the boys in his time had to learn, and hoped there were no such things in these days. He had never missed attending the girls' closing when he was in town since he came to Victoria, but a very severe cold had kept him late today. He wished all a pleasant holiday.

His lordship thought that the girls attending this school had a very great advantage, though everybody in Victoria did not agree with him. He believed that it was better for girls to go to a school which none but girls attended. They had, too, he considered, another advantage in the permanence of the staff. Nothing was worse for a school than too frequent changes.

If the girls wanted to enjoy their holiday in the very best way they must try to think of others rather than of themselves. It was a mistake to believe that those were happiest who were always trying to get most for themselves. Enjoyment needed thinking about and planning for as well as lessons. The girls knew that in hockey or any other game she was a very poor player who did not think about the other members of the team. He hoped all teachers and pupils would have the very best sort of a holiday.

Trustee Staneland was present and presented honor rolls, but did not speak.

Wash greasy dishes, pots or pans with Lever's Pure Soap a powder. It will remove the grease with the greatest ease. 26

TEACHERS WILL CONVENE IN DENVER

Denver, Colo., June 30.—Seven days' of work and pleasure are in store for the teachers and visitors who attend the national educational convention to be held in Denver, July 3 to 9, inclusive. Preparations are being made to care for 20,000 visitors.

The programme just issued provides for five general sessions in the auditorium at which such speakers as Nicholas Murry Butler, Professor of Columbia University; J. W. Roberts, Professor of Macdonald College, Quebec, and E. G. Dexter, commissioner of education for Porto Rico will be heard.

PREMIER ADDRESSES MEETING AT CRANBROOK

Cranbrook, B. C., June 30.—Premier McBride arrived here yesterday by motor from Golden after a delightful trip through the Columbia Valley, visiting Cottrelman, Wilmer and Windermere en route.

Besides H. G. Parsons, M. P. P., Hon. F. C. Colin accompanied him as far as Windermere and both ministers were greatly pleased with the prosperous conditions of the valley and high in their praise of its prospects and resources from the mining lumbering and agricultural standpoint and also in view of the attractions to sportsmen and lovers of magnificent scenery.

The premier addressed a public meeting last night, Mayor Fink presiding, and it was attended by all classes. A smoker followed and this morning the premier left for Fernie.

She Slept in the Wheat.

Oklahoma City, Okla., June 30.—While driving his harvester through his fields near Ural, Okla., John Nichols, a well-to-do farmer, ran over his little daughter, killing her instantly. The child had walked into the wheat and fallen asleep. Not until the father had driven twice around the field did he discover the child's body.

P. J. RIDDELL IS HONORED

Track Epmloyees of B. C. Electric Company Make Presentation

To testify in some small measure, their esteem for P. J. Riddell, who for fifteen years has been associated with the British Columbia Electric Company, the track employees of that company last night presented Mr. Riddell with a handsome Morris chair at the same time taking the opportunity of wishing Mr. Riddell God Speed on his trip to the Old Country, and a safe return.

Mr. and Mrs. Riddell leave on the 9th inst. on a three month's trip to his old home in Scotland after an absence from the land of the heather of twenty-nine years.

A special meeting of the track employees was called in the B. C. Electric employees rooms, Government street, where the presentation was made. Jerry Findlay officiated as chairman and made the presentation in a neat speech in which he referred to Mr. Riddell's long association with the company and the close relationship which had always existed between him and the track employees. All joined in their wish that he and Mrs. Riddell should have a most enjoyable voyage and return benefitted by their holiday.

Mr. Riddell responded in feeling terms, thanking the trackmen for their gift and good wishes for himself and Mrs. Riddell.

Bagpipe selections were rendered during the evening by Pipe Major McIvor and E. Wishart, of the St. Andrew's Pipe Band and songs were rendered by F. Findlay, J. Bennett, J. Campbell and others. Refreshments were served and several toasts were honored with musical honors.

COAL STRIKE IN WEST IS OVER

Men in Crow's Nest Collieries Sign Agreement With Operators

Ten collieries in the Crows Nest Pass district, where a strike has been in progress since April 1st will resume work tomorrow morning, the men having signed an agreement with the operators. This is in effect the text of a telegram received yesterday by A. C. Flumerfelt of this city.

For the last three months the effect of this strike has been far reaching in the West. It represented a considerable montary loss to business and mining interests, besides meaning that thousands of men were out of employment.

It is understood that the basis of the settlement was the MacLeod conciliation. By this the men do not insist on the union shop, and the operators on their part can hire or discharge men whenever they like. It is understood also that the operators give in on their contention for smaller wages in mining pillars and other forms of mining.

The referendum vote on the agreement was taken on Sunday and showed that the men were overwhelmingly in favor of returning to work. The agreement was finally signed yesterday.

PREDICTS LARGE WHEAT MOVEMENT

Captain Worsnop Says 20,000,000 Bushels Will Go to Mexico

"If present prospects are realised there should be anything up to 20,000,000 bushels of Alberta wheat shipped to Mexico via Vancouver this season," said Captain Worsnop, manager of the Canadian-Mexican line. Captain Worsnop has just returned from Calgary, where he has been in conference with some of the leading grain shippers.

"I did not see all the people I intended," Captain Worsnop continued, "and I shall make another trip to Calgary in the near future with a gentleman from the South."

Whether Alberta wheat will be shipped to Mexico depends upon the rates the C. P. R. give to the coast in his opinion. Mexico gets her wheat from Texas and other southern states, but the wheat famine which prevails means that Canadian wheat would be welcomed, provided the rates are reasonable. Besides the haul from Alberta to Vancouver, and the water haul from Vancouver to Salina Cruz, the wheat has to be sent by rail into the heart of Mexico and unless the rate to Vancouver is struck at such a figure as to enable the Canadian wheat to compete with the southern variety, the amount shipped will not be great.

"But from what I learned at Calgary, I have every hope that Alberta wheat will be sent in big quantities to Mexico this season," concluded Captain Worsnop.

POLICEMAN KILLED BY ANGRY BOYS

Frederick, Md., June 30.—While on his way to the magistrate's office late last night with Frank Cahill, 15 years old, Policeman William Orrison, Jr., of Brunswick, was intercepted by friends of the lad and dealt a terrific blow on the side of the head with his club and killed. Young Cahill had been arrested on complaint that he had been stealing rides on a merry-go-round in the park.

John D. Takes Outing

Cleveland, O., June 30.—John D. Rockefeller and Mrs. Rockefeller arrived here today to spend the summer at their Cleveland home, Forest Hill. They were accompanied by Mrs. Rockefeller's sister, Miss Spelman and a retinue of about 25 servants. Mr. and Mrs. Rockefeller will remain here until about September 15.

DOMINION DAY

This is Dominion Day. Canadians are not much given to heroics. When we have a public holiday, we generally make a holiday of it, and we do not trouble ourselves much about exhibitions of patriotism or anything else except good humor. Yet the recurrence of the anniversary of the founding of the Dominion ought never to pass without some reference to the occasion, and the expression of some of the thoughts to which it gives rise. Looking back to the year 1867 and reading the speeches of the men, who labored successfully to consolidate the provinces of British North America, one notes that in their minds there was one dominant sentiment, namely that Confederation was a duty to the Empire. The statesmen of those days, while they foresaw great material progress for the new Dominion, did not anticipate what we have since witnessed; but they did appreciate in the fullest degree that Canada's would be called upon one day to assume a grave imperial responsibility. It may be truly said, that patriotism, not the hope of commercial and industrial prosperity, was the inspiring cause of the Union of the provinces. Therefore the growing appreciation of that responsibility, which is so manifest today, is in keeping with the purpose of the men, who devised the plan of Confederation, and of those, who ratified it with their votes. In one respect the founders of Confederation builded wiser than they knew, for they did not suppose they were setting an example that within half a century would be followed all over the British dominions.

The forty-two years which have elapsed since the Dominion was inaugurated have been fruitful of great results. They have not been just what was expected. At that time the vast region between the Great Lakes and the Pacific Ocean was very little known. When a pre-Confederation orator wished for a simile of national expansion he spoke of "that boundless region extending from Halifax to Sarnia." In one of his speeches the late Judge Grey, addressing a St. John audience, added to the above phrase "from the Restigouche to the Saskatchewan," and his hearers wondered what the latter name meant. Then it was thought that the development of Canada would be towards the Atlantic coast, and the people of the Maritime provinces hoped to rival Ontario and Quebec in the matter of population in a very short time. Then the International Railway was regarded as a stupendous undertaking, and it was thought necessary to get a guarantee from the British government for the money that had to be borrowed to build it. As the problems, which the Canadian people have had to work out and are now engaged in solving, are widely different from those which were anticipated when the Dominion was founded, so we may with reason expect that the problems of the future will be very different from those with which we are now dealing. But the spirit in which the affairs of Canada should be conducted ought to remain ever the same. It must be a spirit of conciliation, so that there shall not arise in our vast domain any racial or sectional differences. It must be a spirit of progress, so that the vast resources of our land may be turned to the best advantage. It must be a spirit of justice, so that it shall ever be said that in Canada the British principles of fair play and equal rights are preserved in their integrity. It must be a spirit of respect for constituted authority, so that the laws of the land shall ever be a sufficient safeguard for the liberty and protection of the people. It must be a spirit of rational optimism, so that we will grapple courageously with the great enterprises which the full development of our country requires. It must be a spirit of national honesty, so that our politics may be kept free from corruption and wrongdoing. It must be a spirt of patriotism that will bind us to the Empire and the Flag, within which and under which are to be found the best demonstration of liberty under law that the history of mankind has yet been able to furnish.

CITIZEN SOLDIERS.

The Fifth Regiment broke camp on Tuesday night, and the heroes of the last fortnight are once more everyday folk like the rest of us. We do not believe that the value of the work done by the Militia is half appreciated by the citizens at large, for one could think that, if it were, the service would be more heartily encouraged, and we would have in Victoria a body of trained men in keeping with the population of the city and its importance as an outpost of the Empire. The young fellows, who marched home the other night singing popular songs and generally conducting themselves like a lot of schoolboys, are a very real, and may easily prove themselves to be the most important, factor in the community. Of course, in these piping times of peace we may treat the Militia as more or less of a joke; but you remember when word went out that the Empire needed men to sustain its honor in South Africa. There was no joke about the matter then. You remember that first night in the Drill Hall? when volunteers were called for, and how suddenly our everyday friends became heroes? And their heroism was not of the ephemeral sort, which lasted only when the band played and the flags were waved. It was made of sterner stuff, of the stuff that stands fire; and there is a brass tablet on the walls of the Drill Hall which tells that it was a heroism inspired by the greater love of country that leads men to lay down their lives for it. When the boys are out under canvas on Macaulay Plains or elsewhere, they themselves treat it a good deal like a piece of fun; but don't make the mistake of thinking that there is not behind it all a resolute purpose and a spirit that can ever be relied upon if our homes or the honor of our country is in danger.

It is worth while to ponder over this thought a little. There has been big gun practice out over the strait, and death-bearing shells have been fired at targets from two to four miles out at sea. Pretty good practice was made. What does it mean? It means that the men of the Militia are learning how to defend our shore against a possible enemy, and know how to do it very effectively. If there should come war, it would be the young fellows who were recently in camp upon whom we should have to rely for the protection of our homes from an invader. Of course we all hope that there will be no war; but as yet the dove of peace builds her nest behind the cannon, not in the cannon's mouth. We wish the Fifth Regiment were three times as strong as it is; and we say it is the duty of all people to use their influence in making it strong. We know all about the modern cult, which holds that to teach civilians how to defend their country is to cultivate a love of war; and we also know that there never was greater nonsense. We do not believe in what is called militarism; but we do believe in a free people with arms in their hands and a knowledge of how to use them. We write this article to place on record an expression of appreciation of the work done by the officers and men of the Fifth Regiment, and to express the hope that that excellent organization may become numerically stronger, and that its efficiency, already high, may increase until it takes its place in the very forefront of Canadian military organizations, if it is not there already.

HIGHER PATRIOTISM

The observations of Canon Henson at yesterday's Canadian Club luncheon possessed great value. Canon Henson is splendidly equipped to deal with the topic, which he selected as the subject of his address. His opportunities for learning the sentiments of the leaders of British thought are exceptional, and his ability to give expression to his views is unsurpassed. He spoke as one who feels the impelling force of a great duty. He referred to the present time as critical in the history of the British Empire, not because he looked for a German invasion, but because he realizes that a clash between the ideals represented by the British institutions and those which dominate Continental Europe seems inevitable. He spoke not as an alarmist frightened by phantom airships or navies as yet unbuilt, not as a politician seeking to discredit the party in power, but as a student of affairs, who has had the privilege of knowing what the sober sense of the people of the United Kingdom is, as a citizen of the Empire who feels the nature of the obligations resting upon us as the custodians of Common Law, the traditions inherited from our ancestors and the principles of human liberty which they established through centuries of sacrifice.

Canon Henson pleaded for patriotism of the highest and broadest kind, and yet he claimed that patriotism to rest upon the ancient foundation of the home and those virtues, which we sometimes call homely. The Empire is based upon the hearthstone. It is the world's guarantee of peace, provided it is strong enough to protect itself. If it should fail in this respect and its wide domain should become a prize for the nations to struggle over, the world would be deluged in bloodshed. Few of us have ever thought what would be implied in the readjustment of national relations if the British Empire should cease to exist as a political fabric.

Yesterday's address was the first to be delivered by Canon Henson in Canada. Doubtless before he returns home he will have to speak many times to Canadian audiences. If we may judge from the impression produced upon his hearers yesterday, we may with safety say that his message to the people of Canada will not be less important than that delivered by any of the able men who have been the guests of the Canadian Clubs. He can hardly fail, not so much to give a new direction to Canadian thought, as to steady it in the line which it has recently been taking.

THE WATER QUESTION

The City Council has decided to offer the Esquimalt Water Works Company $850,000 for its property and undertaking. We suppose that this will be followed up by proceedings under the act of last session, provided the company does not accept the offer. We are not advised of what the company will do. One of the stockholders stated yesterday to the Colonist that he was glad the case was to be brought to a climax, for, he said, if we must sell our property to the city we ought to know it as soon as possible. We think that this view will be shared by the citizens, who would like to have the question disposed of at the earliest possible day one way or the other.

Certain of the aldermen were opposed to making the company any offer, claiming that the city ought to go to Sooke. We sympathize with them in their desire to give effect to the popular vote on the subject; but they will on consideration realize that the legislation of last session has created a very different state of things from that which existed when the plebiscite was taken. The position always taken by the Colonist on this question is that the city should control every source of available water, and should have vested in it the right to supply water not only to the city itself but to all the surrounding country, without competition or interference from any private corporation. We stand for public ownership of the water supply in the broadest possible way. We have the right to use Elk Lake, let us hold that right. We have the right to utilize Sooke lake, let us hold that right. We have the right to acquire Goldstream at a fair valuation, let us acquire it. We will need them all.

WOMAN SUFFRAGE.

We do not suppose for a moment that anything this paper can say will have the slightest influence upon the conduct of the English suffragettes, but it seems impossible to allow such a performance, as took place night before last in the vicinity of the House of Commons, to pass without some comment. We should suppose that such scenes are more likely to lead to the defeat of the woman suffrage movement than to promote it. No cause, no matter how worthy in itself it may be, can hope to succeed without popular sympathy, and Mrs. Pankhurst and her followers are doing the best they know how to deprive themselves of that sympathy. There was a very good prospect of woman suffrage growing in popular favor. There are arguments in its favor, and these arguments, soberly presented, were making a marked impression; but the hysterical performances of those who are the leaders in the movement, has brought to notice an aspect of the case, which would not otherwise have occurred to most people. A question naturally arises in the minds of those, who would like to reach a wise conclusion on this subject, as to the fitness of a sex, so governed by hysteria, to exercise the franchise. To entrust any class of people with the right to vote is a serious matter. In respect to men the sense of responsibility resulting from centuries of obligation has had a sobering effect, and on the whole public opinion, as expressed at the polls, is reasonably sane. The right of franchise is an evolution in the obligations of men to protect the state. If we look for its origin, we will find it in the ancient days when our fighting ancestors chose their leaders. Ever since then government has been men's work, and in a way, not wholly a satisfactory way we may admit, men have fitted themselves for the task. On the other hand the very great majority of women have not concerned themselves with government. To claim, as some women do, that this is a badge of inferiority is altogether wrong. It is impossible that the mothers of the race and the keepers of the home can ever occupy an inferior place. We do not care what kind of work has been assigned to her, or what personal rights men have been willing that she shall possess, the place of woman is and always has been as noble as that of man. If we are told that in certain times and in certain countries the position of women was little better than that of chattels, we reply that the same is true of men, and we add that just as men have emancipated themselves politically, so women have emancipated themselves socially, until in their sphere they are fully equal, and we are not sure that we might not say superior, to men. The training of women through centuries has not fitted them for affairs of state. We grant the numerous and conspicuous exceptions, but these prove nothing except that the two sexes are intellectually equal. Every student of history must admit that the majority of the women, who have been politically great, were, happily for our race, not types of their sex. From Semiramis to Catherine the Great, the great women of history, in the majority of cases, exhibited traits of character, showing them to be exceptional and not true types of their sex. Many of us were beginning to think that, with the ability shown by women to play a man's part in the business world, there had been developed an ability to play man's part in politics; but the hysterics of the suffragettes show this to be a mistaken view. We are inclined to think the cause of woman suffrage has received a tremendous set back at the hands of its unwise advocates. The great majority of men and women are not willing to entrust the national welfare to feminine hysteria.

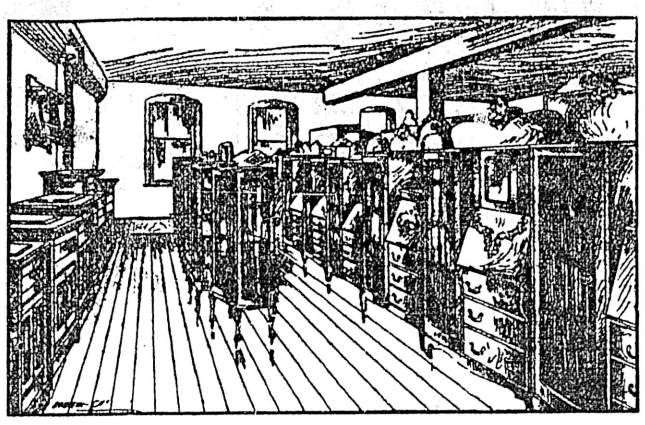

Sole Victoria Agents for "Ostermoor" Mattress

Victoria Home of "Old Hickory" Summer Furniture

Sole Victoria Agents for McCray Refrigerators

COMBINATION DESK AND BOOKCASE

An Excellent Assortment From $22.50

EIGHT STYLES SHOWN ON THIRD FLOOR

THE Combination Bookcase and Writing Desk is a very useful furniture item to have in the home. A safe and convenient place to store writing materials and a place to write is desirable and a place for the books of the home is almost a necessity.

In these combinations you get both combined in a furniture piece of very attractive design. We have eight different designs shown on our third floor. Come up and look over the offerings. The price won't prevent you from owning one and we feel confident you'll be pleased with the styles. Prices range at—

$22.50 to $50.00

LET US SHOW YOU THESE SILVER ITEMS

Let us show you these dainty silverware items—silver pieces particularly desirable for this season of the year. The offerings include the famous "1847 Rogers Bros.'" ware and sterling.

Just now when berry season is at its height these items should appeal to those homekeepers who delight in a properly furnished table. Cost so little to have these, most any home can afford the outlay.

BERRY SPOONS—of 1847 Rogers Bros.' silver plate. Many pretty designs and each one in a lined case. Prices range from $2.50 to.... **$2.00**

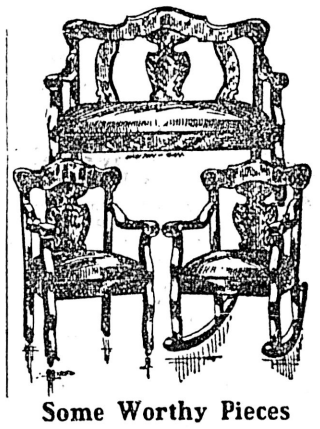

BERRY SETS—Another 1847 Rogers Bros.' product. Set consists of spoon and half-dozen forks in lined case. Several patterns, at per set **$6.00**

STERLING BERRY SPOONS—If you want something dainty in Sterling berry spoons, see these. In lined cases, at $7.50 to **$5.00**

TOURISTS AND VISITORS SHOULD VISIT THIS STORE

Tourists shouldn't fail to see the inside of this big store, for within its walls are to be found some of the finest souvenirs imaginable. China pieces never seen on the U. S. side of the line are to be found here. British linens and drapery materials, too, that high tariffs exclude from the U. S. Come in and look around.

For The Parlor

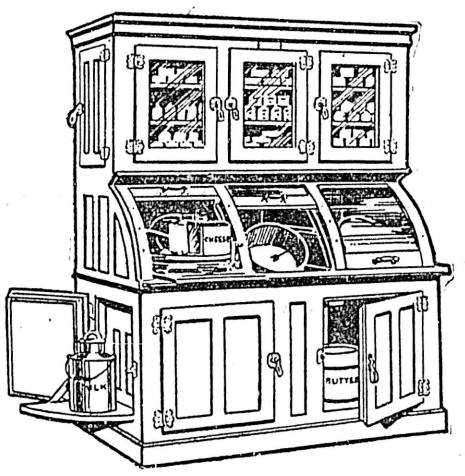

Some Worthy Pieces

WE WANT you to visit our third floor and look over our offerings in parlor furniture if you are at all interested in this line of furnishings. The showing embraces almost every good style. Much of the upholstering work has been done in our own workrooms—a sufficient guarantee of quality.

Special furniture pieces made to order or old parlor furniture recovered and repaired here.

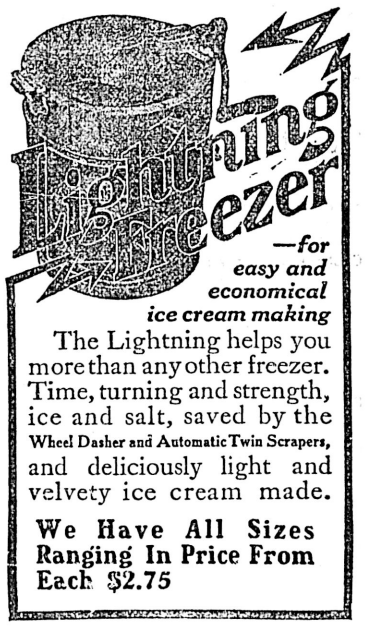

GROCERS' REFRIGERATORS

Money Savers—Trade Winners

SOME merchants don't realize the great advantages of having a first-class refrigerator in their stores. They fail to see the money-saving possibilities and the trade winning powers of an attractive refrigerator.

We would greatly appreciate an opportunity to talk this matter over with you. We do not stock these here, but can show you many illustrations and quote you interesting figures. These refrigerators are the famous McCray make and are to be found in thousands of stores. Drop in and investigate further.

—for easy and economical ice cream making

The Lightning helps you more than any other freezer. Time, turning and strength, ice and salt, saved by the **Wheel Dasher and Automatic Twin Scrapers,** and deliciously light and velvety ice cream made.

We Have All Sizes Ranging In Price From Each $2.75

25 CENTS ITEMS

See the host of 25c items in our windows. You'll find dainty cups and saucers, sugars, creams, tea sets, etc. All very special value.

FURNITURE FOR YOUNG FOLK

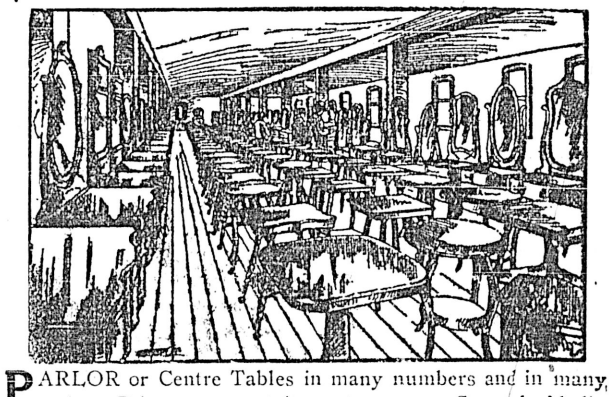

HERE ARE some interesting furniture pieces for the little folks—items that'll give them genuine pleasure of the best sort. And the cost is so small that the humblest homes can afford to give their little tots a "treat."

Send home one of our Child's Sets. The set consists of a table and two chairs. These are substantially made and are not common toy sets. Painted a pretty blue, and priced at **$2.50**

Or, perhaps, a comfy little Rocker would please the little heart. We have a big choice with prices ranging from ..... **85¢**

$2.50 BUYS A PARLOR TABLE

PARLOR or Centre Tables in many numbers and in many styles. Prices, too, to suit most anyone. Some decidedly attractive styles in the little priced styles.

These Tables are most useful furniture pieces to have in the home, for they serve well the purpose for which they are intended—parlor or centre tables—and when card time comes around they may be pressed into service as card tables.

We would greatly appreciate a visit from you. Come up to the third floor and see these tables. See the great range priced from—

$2.50 to $50

FURNISHERS OF CHURCHES SCHOOLS BOATS

WEILER BROS.

HOME FURNISHERS SINCE 1862.

FURNISHERS OF HOMES CLUBS HOTELS

HENRY YOUNG & CO.'S MIDSUMMER SALE

We have recently acquired the spacious premises adjoining this store, at present occupied by Messrs. Hibben & Co. These will be used in addition to our own present quarters, and when rebuilt and remodelled will form one of the handsomest Dry Goods Stores in Western Canada. In preparation for this remodelling, we are at present building a two-storey addition, 40 feet square, in rear of these premises. The contractors have a large staff of workmen on hand, laboring hard to rush its completion, so that we may be installed there ready for the fall trade. Our Mr. H. B. Young is on his way East, where he will visit the chief fashion centres, and personally select goods for the coming season. We have to make room for his large purchases. Immense shipments of new goods will soon arrive. Room must be obtained for them or we will be completely hedged in. We are making it our boast that we do not intend to carry over any of our present stock. Therefore we have decided to offer all goods at a tremendous sacrifice. Everything will be sold at such bargain-figures never to be approached again. This Midsummer Sale will consequently eclipse any of our previous undertakings. These marvelously low figures will soon remove the congestion of present stock. Visitors will see at a glance that a purchase will prove a big investment from every standpoint, because everything we carry is full of high-class, seasonable excellence. Every buyer will prove an enthusiast. Read the following items of maximum quality and minimum cost, never shown in such abundance before in Victoria. Then come down on Friday morning, as early as possible, family and all. Glad to see each one of you—the more the merrier.

Early Shoppers Will Have Largest Choice. Store Opens 8:30, July 2nd

Dress Goods Department

No time like now for purchasing dress materials and linings. Each line is full of excellence, offerings unique in value-giving. Better select your fall suitings now. Price quoted is but a low fraction of their value.

NEWS OF THE CITY

Few Fire Alarms

June was a quiet month with the firemen, only eleven alarms being turned in, two of which were false alarms, seven occasioned by small roof fires and two the result of fires equally unimportant.

Big Gain in Clearings.

Judging from the monthly bank clearings, business conditions during June were especially healthy. The aggregate clearings for the month totalled $6,452,175, compared with $5,407,566 in May, and increase of $1,044,609, or 20 per cent., and were $1,951,363 in excess of June, 1908.

Ferries Were Crowded

Large crowds went over to Vancouver yesterday afternoon on the Princess Victoria and last evening on the Charmer. The Princess was crowded with holiday seekers who will spend the First in the Terminal City. The Charmer was crowded to her capacity every birth having been sold out by 9 o'clock in the morning. Many persons desiring to make the trip were surprised when they applied for tickets on the Charmer to find that no accommodation was to be had.

Automobilists Fined

In the police court yesterday Magistrate Jay fined a couple of motorists, Herbert Cuthbert and J. Van Decar, $5 apiece for rounding a corner without blowing their horns, in contravention of the city bylaw. A second information charging Mr. Cuthbert with not having his permit number on his machine was withdrawn on his showing that a number had been originally placed on the machine, and had been replaced by him directly he became aware that it had in some way fallen off.

Victoria Revisited.

Rev. Amos E. Russ, M.A., Woodstock, Ont., accompanied by his wife and daughter, arrived in Victoria, yesterday, after having visited the mainland and Portland, Ore. Mr. Russ was pastor of the old Pandora street Methodist church forty years ago, and left thirty-one years ago. This is his first visit since leaving. The rev. gentleman will preach in the Metropolitan Methodist church on Sunday next, when a large number of the pioneers of the city will have the pleasure of meeting him again. During their stay in the city they are guests of Mrs. David Spencer, Moss street.

Monster Strawberries.

Eighteen giant strawberries, probably the largest ever picked in the neighborhood of Victoria, have tipped the scale at one pound and a half. These magnificent berries were picked on the ranch of John Brown, Mount Tolmie and Cherrybank, and are now on exhibition at Copas and Young's. Secretary McGaffey, of the Vancouver Island Development League, immediately on hearing of the large fruit, had it photographed, and the photo will be on exhibit at the Seattle Exposition, as well as forming one of the prints in the London portfolio, which the development league is now compiling.

Marble Exhibits.

Among the latest contributions to the exhibit of Vancouver Island mineral resources which the development league will send to the Seattle Exposition are two fine specimens of marble from the Nootka Marble Quarries. One of them is a slab 7 ft. 2 in. high, 4 ft. 1½ in. wide, and 1 in. in thickness. The other is a pillar of marble, with pedestal base 18 in. by 18 in., the top being polished. A fine photo of the West Coast marble quarries will also be an exhibit, having been presented to the development league, along with the above specimens, by A. W. McCurdy, president of the company.

Fixing Gravel Pits

Progress on the work of surveying what is known as the "Gravel Pit" district at Spring Ridge is under way. The street lines and grades are being secured and as soon as this information is ready the plans for the big work will be prepared. Streets will be lowered to the proper grade, where necessary, and pits and hollows filled up while the work provides for the lowering of buildings and fences where required. The residents of that section of the city are set upon having the work done as soon as possible and are waiting for the city engineer's estimate of the cost when the committee of owners will again take the matter up with the city and endeavor to have an early start made on the actual work.

Object to Guy Wires

Of late, several applications have been made by the British Columbia Telephone Company to the city for permission to place guy wire in several locations in the city for the purpose of bracing its poles where heavy cables are being strung. The members of the council are dubious as to the proper kind of guy wire to be installed. In some cases such wires have been strung from the pole to the sidewalk. This method is objected to, while an alternative method, of covering the guy wire with a wood pipe for some distance from the ground does not appear to find any great favor with the aldermen. Until the aldermen inspect the different methods of installing the guy wires, permission for the erection of the same has been delayed.

RAILWAY COMMITTEE

Members of Board of Trade Discuss Vancouver Island Problems

The special railway committee of the Board of Trade met yesterday. In addition to the original members of the committee there were present R. P. Rithet, H. G. Wilson, H. B. Thomson, M.P.P., and John Jardine M.P.P. There was an informal discussion of the development of the Island by railways, and a decision was reached to prepare immediately all available data bearing upon the subject. Mr. Rithet submitted a brief synopsis of the points to be covered and this will be sent to all members of the committee, who will cover such of the points mentioned in it as they feel like dealing with, adding such other matter as may suggest itself to them. When these memoranda have been completed they will be put into convenient form and be laid before the railway companies, the governments, the municipalities and all other persons interested. Messrs. Rithet and Wilson were added to the committee.

Total precipitation for the month, 0.46 inch; average amount, 0.33 inches. Bright sunshine, 272 hours 6 minutes; mean daily proportion, .59; (constant sunshine being 1.)

Japanese Oranges

The following resolution has been passed by the provincial board of horticulture, under authority of regulation No. 6 of the rules and regulations of the board of horticulture:

"Resolved, That such importations of Japanese oranges as are found to be infested with San Jose scale or other scale insects shall be dealt with in the same manner as importations of apples found to be similarly infested, and that the inspector of fruit pests is hereby instructed to act accordingly."

OBITUARY NOTICES

Wollaston

At the ripe old age of 83 years, Percy Wollaston, senior, passed away yesterday at the residence of his son on Oak Bay avenue. Deceased had been ailing for a year past. He was a native of Leeds, England, and was a general favorite among a large circle of acquaintances. His wife predeceased him eight years ago. The funeral will take place tomorrow morning at 10:30 o'clock from the residence at Oak Bay, a service being held at 11 o'clock at Christ Church Cathedral.

Pollard

The funeral of the infant son of Mr. and Mrs. George Pollard took place yesterday afternoon. Services were conducted in the Hanna Chapel at 2.30 p.m. There was a large attendance of friends, the little casket being laden with flowers showing sympathy with the bereaved parents. The Rev. F. T. Tapscott officiated and interment took place at Ross Bay Cemetery.

Carmichael

The remains of the late Mrs. Susannah Carmichael who died on June 28, Whannock, B. C. arrived in this city yesterday afternoon via Vancouver, per the Princess Charlotte and were removed to the chapel of the B. C. Funeral Furnishing Co., Government St., from where the funeral will take place tomorrow at 2.30 p.m. The Rev. W. L. Clay will officiate.

The eight per cent. collected by the French Government on all money bet on the pari mutual system in France yielded last year $929,839.25.

New Zealand has an available coal supply of 1,200,000,000 tons, of which not more than 20,000,000 tons have been touched.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Liniment. This liniment is equally valuable for muscular rheumatism, and always affords quick relief.

Important Sale of Household Furniture.—As will be seen from out advertising columns, Messrs. Stewart Williams and Co. start today selling Mrs. M. R. Douglas' Furniture at her residence on Fairfield road, and will continue on Friday, July 2nd, at 2 o'clock. Anyone really wishing to pick up first-class Furniture and Carpeting will have a chance at this sale that never has been excelled in Victoria. The majority of the goods have only been in use for a few months, and are practically new. Amongst the goods that will be offered are some very fine Brussels and Wilton Carpets of the latest designs, Oak and Bird's Eye Maple Bedroom Furniture of the best quality, Brass Belsteads, Ostermoor and Dominion Spring Mattresses, a new "Majestic" Range, a large Lawn Mower, Drophead Singer's Sewing Machine, etc. The goods for sale on Friday, will be on view this morning and Thursday. Take the Cook street car and get out at the Fairfield road at the Cemetery end. •

Tea is more susceptible to foreign influences than even butter. This is why is it should never be exposed to the air or sold in bulk form. The sealed lead packets of "Salada" Tea preserve the tea in all its native goodness. Insist upon "Salada." •

A WONDERFUL DISCOVERY.

This is the age of research and experiment, when all nature, so to speak, is ransacked by the scientists for the comfort and happiness of man. Science has indeed made giant strides during the past century and among the—by no means least important—discoveries in medicine comes that of

THERAPION.

This preparation is unquestionably one of the most genuine and reliable Patent Medicines ever introduced, and has, we understand, been used in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, Maisonneuve, the well-known Chassaignac, and indeed by all who are regarded as authorities in such matters, including the celebrated Lallemand, and Roux, by whom it was some time since uniformly adopted, and that it is worthy the attention of those who require such a remedy we think there is no doubt. From the time of Aristotle downwards, a potent agent in the removal of these diseases has, like the famed philosopher's stone, been the object of search of some hopeful, generous minds; and far beyond the mere power—if such could ever have been discovered—of transmuting the baser metals into gold is surely the discovery of a remedy so potent as to replenish the failing energies of the confirmed *roué* in the one case, and in the other so effectually, speedily and safely to expel from the system without the aid, or even the knowledge, of a second party, the poisons of acquired or inherited disease in all their protean forms as to leave not a taint or trace behind. Such is

THE NEW FRENCH REMEDY

THERAPION,

which may certainly rank with, if not take precedence of, many of the discoveries of our day, about which no little ostentation and noise have been made, and the extensive and ever-increasing demand that has been created for this medicine wherever introduced appears to prove that it is destined to cast into oblivion all those questionable remedies that were formerly the sole reliance of medical men. Therapion may be obtained of the principal chemists and merchants throughout the world.—*Diamond Fields Advertiser.* KIMBERLEY.

STABILITY OF EMPIRE AT STAKE

Canon Hensley Henson Delivers Notable Address Before Canadian Club

In an inspiring and eloquent address, fervid with patriotism, and telling in unmistakeable language of the gravity of the situation confronting the Empire today, the Rev. Canon Hensley Henson, of Westminster Abbey, made his first public utterances in Canada yesterday at a luncheon given in his honor by the Canadian Club of this city. In the course of his address he said that the clergy of England were neglecting their duty if they failed to point out the need of sacrifice by the people to maintain the heritage which their fathers had won. Britain was laboring under a cloud of responsibility Her domestic, national, and imperial stability were at stake.

A. E. McPhillips, M.P.P., presided at the luncheon, which was held in the Empress Hotel. The accommodation was limited to fifty guests.

In introducing the speaker, the chairman referred to Canon Henson as one of the notable figures of the present day. His great experience would lend force to his remarks. They all knew the history of Westminster Abbey, and the sanctified memories it recalled. The speaker today was one of the trustees of this historic building, and the Canadian Club was honored in having him as their guest.

His Visit Here.

Canon Henson opened his eloquent address by alluding to the fact that ten weeks ago he had landed in New York, and during his progress through America he had seen many interesting things. He was in a quandary upon what subject to speak to his audience today. If he spoke upon themes which were very close to his heart, they might possess no interest for his listeners. If on the other hand he spoke upon matters which he thought might interest them he might find himself equally at fault. There was one theme, however, to which he could not forbear alluding, and that was the amazing beauty of Victoria. In coming over the Sound towards this city he had noticed scenery which it would be difficult to surpass. It must indeed be a matter of legitimate pride to all who are fortunate enough to reside in this delightful spot.

Sights of City.

"This morning," said the speaker, "my wife and I walked out to the saw mills, for we heard that they constituted one of the sights of the city. When one thought of the enormous power for destruction in the machinery there, one felt a kind of awe. The mind reverted to the great trunks standing in all their primeval grandeur in the forests, in a state of perfection which they had perhaps taken a thousand years to reach. How they were cut down by pigmy man; how such power was delegated to these pigmies, and how the results of this power was evidenced at these sawmills.

"Then," continued the speaker, "we were taken to see your provincial parliament buildings; and I must say that these take high rank among buildings of their kind. While there I saw maps which more than ever emphasised to me the territorial insignificance of Great Britain and Ireland. I saw these little islands, which mean so much to us, tucked away in a map of British Columbia, and from this I was able to realise the immensity of this Dominion of yours. In England we have only one railway journey on which it is possible to spend the night in the train, and that journey carries you into Scotland.

"This immensity of your continent recalls to my mind the prophecy made by Hume in 1770, when Gibbon asked him whether he should write the 'Decline and Fall of the Roman Empire" in English or French. 'In French,' was the reply, 'for the time is coming when the New World will be inhabited by an immense number of English-speaking people.' Hume, and Hume alone of his time foresaw the great future of this continent., and what is more, he realised the extraordinary value of Gibbons' work.

The Present Danger.

"Speaking as a canon of Westminster Abbey, and rector of St. Margaret's—and as the latter is the House of Commons church, I feel prouder of that position than of the former—I want you to know that at home I am known as a cross bench man. That is, that I belong to neither political party. In this country I believe I should be known as a 'mugwump.' I am explaining this to you because I want to speak of a great anxiety which is now clouding the minds of our people at home. We have arrived at a phase in our history where our domestic, our notional, our imperial stability are at stake. I have the honor of knowing the great men of both parties at home. There is not one of them who cherishes the guilty aspiration of making war. But the great men of both parties realise that the Empire today is under a cloud of responsibility. We have conceptions of duty, based upon tradition, which are not cherished on the continent of Europe. England is now practically unarmed and undefended. Why should we alone among nations believe, with the immense privileges which are ours, that we can go on for ever enjoying the heritage which our fathers won for us. The Empire must be sustained by a new patriotism—by a patriotism emanating from the nations coterminous with England. Imperial sentiment is cheap and tawdry unless it develops into patriotism. Imperialism may become an intemperate and non-moral sentiment. Patriotism will always command respect. Patriotism will make a man understand the patriotism of other countries.

Not Nerves.

"Don't suppose for a moment that John Bull is in a state of nerves, for he is not. This agitation for imperial defence has been ascribed to the influence of the newspapers. In my opinion newspapers are more the reflex of people's minds than the creators of people's opinions. Great Britain has not been hustled into a nervous condition by the newspapers. There are two things which have led to the present situation at home. You remember the grave warnings by responsible men. You will have read the remarkable oration delivered by Lord Rosebery before the Imperial Press Conference, when he dwelt upon the critical position. All the great politicians in England are saying the same. With these solemn warnings I believe that the clergy of England are not doing their duty unless we point out the need of sacrifice among the people of the Empire, to maintain their traditions. The religion of Christ is the religion of sacrifice.

"England has been following the course of events in foreign countries. Our people have become seriously impressed. We have seen Russia, with all her mighty power collapse before what was hitherto thought a small and unimportant nation. England has watched with anxiety the sharp and brutal methods of diplomacy applied to Russia and France by a powerful state in Europe. It is upon these grounds that the English people are thinking of the urgency of this great question of imperial defence." (Loud applause.)

Vote of Thanks.

In moving a vote of thanks, the Rev. W. Leslie Clay thanked the speaker for the very kindly, eloquent, and sympathetic address. In expressing the thanks of the club, he felt that he could say that Canada had a patriotism as broad as the Empire itself. The people here had felt that a crisis had come upon them in these latter days. In the name of the Canadian Club of this city he felt that he might tell Canon Henson to carry back with him to England the message that Canadians cannot hold up their heads when they think of all the power, might, and majesty of the British army and navy, and considered that they did not contribute one cent to the expense. If, however, said Mr. Clay, the crisis should become real, he firmly believed that there was not a man in Canada whose blood would not be poured out in the defence of the Empire.

C. H. Lugrin, in seconding, said that had he prepared a speech it would have been driven from his mind by the weighty words which they had just heard. He strongly endorsed the idea of the sentiment conveyed by the speaker. He felt that he could give the assurance that nowhere in the Empire do there beat hearts more loyal to the British throne than in this city of Victoria.

Mr. McPhillips, in tendering the vote of thanks, said that the address of Canon Henson was one of the most eloquent messages that they had ever listened to. The Canon, in replying, said that he would carry away with his the most kindly feelings of his visit. The proceedings concluded with cheers for the King.

COLD KILLS THE GERM

Lieut. Perry Says There Are No Bald Heads in the Arctic Region.

The people who come back from Klondike testify to the fact that no native bald heads are there. The evidence is that the cold climate kills the germs that eat the hair off at the root. Lieut. Perry, who went to the Arctic Regions, gives the same evidence. Newbro's Herpicide has the same effect as the cold climate. It kills the germs that eats the hair off at the roots, and the hair grows again. Herpicide is the first hair remedy built upon the principle of destroying the germ that eats the hair off. Its phenomenal sale demonstrates the correctness of the scalp germ theory. Sold by leading druggists. Send 10s, in stamps for sample to The Herpicide Co., Detroit, Mich.

One dollar bottles guaranteed.

Cyrus H. Bowes, 98 Government St., Special Agent.

THEATRE SITUATION AROUSES CONCERN

Conference Held Yesterday to Consider Action—Meeting Proposed

To take steps which may lead to the erection of a theatre or the purchase and renovation of the present one, which otherwise will not be available for show purposes after December, 1910, was the object of a meeting of local gentlemen yesterday.

The situation was explained by E. R. Ricketts, the lessee of the Victoria theatre to these present. These included D. R. Ker, Dr. O. M. Jones, F. B. Pemberton, Luke Pither, and A. C. Plumerfelt, the meeting taking place at the offices of the latter in the McGregor block.

As a result of Mr. Rickett's statements it was decided to later hold a meeting, probably a public one at which the various projects and propositions will be explained. In this manner it is hoped to elicit the support of Victorians generally. The proposition in so far as the gentlemen present at the conference yesterday are concerned, is not a money-making one.

It was explained by Mr. Ricketts that unless there is reasonable assurance in the very near future, that a theatre will be available in 1910, Victoria will have none of the "legitimate" theatrical attractions. As is well known, the bookings for Victoria are made through the Northwest Theatrical Association and are arranged many months in advance. The situation for theatre goers is therefore a serious one and it was in the hope that a plan might be evolved by which the certainty that the capital of the Province will have the standard attractions after 1910 would be assured that the meeting was arranged.

There are, and have been, various propositions set forward.

Mr. Boscowitz is prepared to sell the present theatre and the question whether this should be purchased and the interior remodelled is one of the propositions. There have been various sites offered or proposed, and other buildings have been considered. These will be explained at the meeting which it is proposed to hold.

Meanwhile the gentlemen mentioned wish to awaken the public to the necessity of some action. If none is taken, it is altogether probable that Victorian theatre-goers after 1910 will only have a chance to witness standard attractions when a stray company of barn stormers strikes town. All of which would mean that Victoria would be reduced to the status of "Tonight at the town hall" centres in so far as mask and buskin are concerned.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic, Cholera, and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure.

To Seattle.—$2.00 Round trip, going July 1st, returning July 2nd. S.S. Iropuois, leaving 9 a.m.

BRICK CHEAPER THAN CEMENT

Ald. Humber Believes City Is Paying Too Much for Its Surface Drains

Convinced that the city is spending more money on the work of installing surface drains than is necessary Ald. Humber will bring the matter before the city council at an early date, and ask that the matter be investigated. On the large surface drains now being installed cement has been used to the exclusion of brick. Ald. Humber believes that brick would prove much cheaper, and be fully as satisfactory as cement, while the cost of erecting the necessary crib work to allow of the use of the latter material swells the cost to a figure altogether out of proportion to what it would prove if brick were used. In fact it is said that in one surface drain now under construction, which was commenced with cement, brick is being used to complete the job.

At the next meeting of the city council Ald. Humber will move that the surface drains now being laid by the city, that is the main drains, be constructed entirely of brick which is, he claims, twelve per cent. cheaper than cement. The brick drains which were built by the city in 1893 have proven that they are superior in quality to those constructed of cement, and are today in first class condition.

LEAVE GRANTED TO WIND-UP ESTATE

Applications Heard by Mr. Justice Martin Yesterday in Chambers

Mr. Justice Martin yesterday finally disposed of the estate left by the late Capt. Power so far as British Columbia courts are concerned. Capt. Power died in 1894 leaving a great deal of property in this province, and the late Hon. Theodore Davie and R. P. Rithet were appointed trustees of the will. The last moneys of the estate, amounting to some $60,000, have been collected, and yesterday an application was made in chambers on behalf of Mr. Rithet for leave to distribute the moneys among the beneficiaries, all of whom live in Philadelphia.

Mr. Rithet was represented by Harry Lawson and the beneficiaries by Fred Peters, K. C., the only opposition being voiced by A. E. McPhillips, K.C., on behalf of one William Smythe, a Philadelphia lawyer, who formerly represented the heirs. It seems that they consider that his charges have been exorbitant, but he desired the question of his remuneration to be decided upon by the court here before the money was distributed.

In opposing this idea Mr. Peters pointed out that Mr. Smythe's claim was really against the heirs individually, and not against the estate as such. They were quite willing to pay him a reasonable amount, and as the method of determining the remuneration of lawyers proceeded on quite a different system in Philadelphia to that obtaining here, the Philadelphian courts were obviously the proper forum for the determination of the question. His lordship made the order for the distribution.

Wm. C. Moresby on behalf of the Walkem estate also obtained a number of orders nisi for foreclosure of mortgages, most of them long overdue.

At the conclusion of the chamber sitting, the last before the beginning of the legal vacation, Mr. Justice Martin, addressing the members of the bar present, expressed the hope that they would enjoy their vacation as much as he hoped to do himself.

FIGURES SHOW GREAT INCREASE

Over Fifty-two Per Cent Advance This Year in Value of Buildings

For the first six months of the present year the aggregate value of the buildings erected in Victoria was $789,200 compared with $520,780 for corresponding period last year, an increase of $268,420 or no less than fifty-two per cent., a record which few cities in Canada have equalled despite the fact that everywhere throughout the country, increased activity in building circles has been marked.

Month after month the building figures this year have showed substantial increases over the same months last year and while the June figures showed a big falling off from those of May, they are still larger than for the month of June last year, when the same falling off from the previous month was noticed. The buildings for which permits were issued last month totalled $90,120, compared with $74,010 in June, 1908.

The monthly figures for the year to date, compared with those of the corresponding period last year were as follows:

Month	1909	1908.
January	$ 78,080	$ 54,725
February	122,680	72,325
March	121,640	110,800
April	188,060	129,625
May	188,620	79,295
June	90,120	74,010
Total, six mo.	$789,200	$520,720

In June a total of forty-six permits were issued and since the first of the year the number of buildings of all descriptions erected was 321.

Garden Party Tonight

A garden party will be held this afternoon at Mr. Heatherbell's residence at the Esquimalt lagoon under the auspices of the King's daughters. A good programme has been provided. For the convenience of those from the city a launch service has been provided. Launches will leave the Esquimalt pier at 1.45 p. m.; 2.30 p. m. and 3.15 p. m., a fare of 25 cents being charged for the return trip.

Holiday Comfort

Nothing like a good hammock to rest in upon your veranda or lawn in the summer time. See our fine new lines, all colors.

Here and There

Yesterday the schools dismissed for the holidays. In most of the schools an attempt was made to make the day a memorable one in the annals of childhood. For many days the pupils worked to prepare a programme that would give pleasure to those they loved. There are some teachers who think it a waste of time to leave the regular work of the school, the arithmetic, the history, the spelling and other studies in which examinations are held to learn the music and words of the songs and the petry, which for the most part, form the simple programme for closing day. They would dismiss the children for the holidays as on ordinary days.

There are, too, superior people who find fault with the childish songs and the imperfect elocution. Then there are parents, hundreds of them, even in our own little city who fancy they are too busy to spend a few hours of one day in the year in showing some little appreciation of the work done by their own children and their teachers. And yet what more important event takes place during the whole year than the dismissal of the pupils of any city for the holidays. The future citizens of Victoria have completed a year's work. A whole year out of their short lives has been spent in preparation for the active work of the future. Is it of no consequence to the citizens of to-day whether that preparation has been well or ill done? Are the teachers who have spent the days of a whole year in the instruction and training of their children unworthy of a greeting and a few words of kind recognition?

If the year's work has not been satisfactory the closing day offers an opportunity for mutual explanations that may be of great importance in next term's work. For it should never be forgotton that the real teacher is more than a hireling. Money will pay the man who digs a garden, the woman who makes a gown, or even the architect who designs a house. But something more should be given the man or woman whose work is the moulding of the character and the training of the intellect of the sons and daughters of the people. They need and deserve the friendship and sympathy of the parents for they give of their affection and their interest to their pupils. It is this that makes teaching hard. The teacher who looks upon her scholars as so many heads into which to pour instruction or even so many minds to be trained is so rare as to be, negligible. The great majority are pained when the children do wrong and watch their future careers with interest. They find their greatest reward in the love and confidence of the children. But they are entitled to the appreciation and regard of the parents and one day in the year is far too little on which to manifest this. Yet that all parents shall be given this one opportunity of doing so is good for them no less than for the teachers and for their children.

From the standpoint of the school the closing exercises are equally important and time is not wasted in preparing for them. There is among most of the pupils of our schools too little of school feeling—the feeling which makes Rugby and Harrow and Eton in England names to conjure with. Each class forms a unit but it is too seldom the case that from the tiniest tot in the infant class to the boy or girl about to graduate with the High School the honor and good name of the school is looked upon as something to be upheld by all. The pupils of one class are not ashamed to belittle the teacher of another. This want of unity is a misfortune and it is not a good preparation for future citizenship.

In the preparation for any school function the boys and girls must write. There they learn that the misconduct of one class—nay if one scholar mars the whole performance. This may never be spoken of but it is not the the things that are talked of most that have the greatest effect. As the children assemble together they learn to know one another.

The little ones admire the strength or the cleverness or the beauty of the big boys or girls and the older pupils look upon the little ones with sympathy and love.

Then too, the teachers and children are brought closer together on the days when the regular routine of school is laid aside and when in the presence of an audience all feel equally the need of looking and doing their best.

Much might be said of the value of the exercises as a preparation for public life. The man or woman who can face an audience without confusion has a great advantage over those who have not learned self-possession. But it is, after all, only the few in any school who can be chosen to recite or sing alone as it is the exceptional person who in after life will be called upon to instruct or amuse an audience. Thought this tarining is of value, it is not the most important purpose of the assembling of the children together at the close of the term.

There is something in the sight of the fresh eager innocent faces of the children that does older people good. Few can look unmoved upon an assembly such as met in the gymnasium yesterday. If with a sense of our own failure there is mingled a hope that our children will accomplish all that we had purposed we will not do our work in the world the less efficiently that we have spared one afternoon from it to share with them their childish triumphs or sympathise with their disappointment.

But if the schools in Victoria are to hold public assemblies we must have assembly halls. The accommodation now is most inadequate at South Park the galleries were crowded and the gymnasium is quite too small for the Central School, while it is said that the galiery is unsafe. When the new schools are built it should be possible to make room in some central building where there will be ample room for the children and their parents to meet.

LONG VACATION FOR CITY CHILDREN

(Continued from page 2.)

Divsion IX.

(I. M. F. Barron, teacher.)

Promoted from 9th to 8th Division—Winston Gardiner, Earle Hall, Robert Hepburn, Kenneth Skene, Thomas Lumsden, Willie McKenzie, Newton Pullen, Percy Lipsky, Vernot Jones, Albert Collison, Hubert Parry, Victor Gravlin, D'Alton Johnston, Clifford, Macklin, Cecil Mayor, Victor Wheatley, Harold Moore, Stanley Johnston, Kinsley Baird, Leland Damon, Wilfred Pauline, Stanley Grant, Charlie Muir, Robert Dunn, Willie Bailey, Robert Buckett, Willie Pears, Leslie McDonald, Joe Moody.

HUGO KELLY COMES INTO SPOTLIGHT AGAIN

Hugo Kelly has been heard of again, the Italian scrapper with the Irish cognomen met Frank Klaus at Pittsburg recently, and although he didn't treat the German as badly as he himself was treated by Billy Papke he managed to win by a big margin in the six-round go.

The bout was witnessed by fully 2,500 people, so it can be easily seen that Kelly, despite his many defeats of late, hasn't lost his popularity with the lovers of fisticuffs in the East.

RESULTS AT NEWMARKET

Newmarket, June 30.—The Plantation Plate of 200 sovereigns for two-year-olds, distance five furlongs, was run here today and won by Gally Bawn, R. McCreery's Santa Corsa was second and H. P. Whitney's Oversight third. Among the twenty-four starters was August Belmont's Amicai.

The Duke of Cambridge handicap of 1,000 sovereigns for 3-year-olds and upwards was won by the Whirlpool. Orquiel was second and Galvani third. The eight starters included August Belmont's Priscillian and Norman III and H. P. Whitney's Stamina.

JOE MADDEN MAY GET TO THE TOP

Famous Race Horse Is Now Biggest Money Winner on the American Turf

Chicago, June 30.—When Sir Martin failed to get inside the money in the classic English Derby at Epsom recently, horsemen then predicted that King James would be the first horse bred by John E. Madden to win $100,000 or over, but during the past few days this belief has changed and now the wise ones are saying that it will be Joe Madden that will be the first to reach the goal so earnestly looked forward to by thoroughbred breeders. During his first year on the turf this son of Yankee and Tarantella won only $9,745, but this year as a three-year-old he has increased his winnings $42,875, making a total of $52,620, and as he yet has many important stake engagements in New York and on the Canadian circuit he bids fair to be one of the largest, if not the largest, money winners on the American turf this year.

Hildreth Heads Owners' List

Even if neither Joe Madden nor King James reaches the $100,000 mark during their career on the turf, Sam C. Hildreth, their owner, bids fair to be the largest money-winning owner on the American turf this year. Since the first of the year the horses racing in his colors in California, New York and Canada have won more than $100,000, and if King James, Joe Madden and the others in his string keep in their present condition throughout the season he will likely finish the year far in excess of James R. Keene and the other rich Easterners. Hildreth was censured by some turfmen when he paid John E. Madden fabulous prices for King James and Joe Madden and others in his string, but these same horsemen are now giving him credit for his foresight, and with the showing made by some of the Madden horses this season they say Hildreth got the best of the bargain in trading with the "wizard" of the turf.

California Tennis.

San Francisco, June 30.—Play in the California State championships in men's and women's singles was commenced today on the courts of the Pacific States Lawn Tennis Association.

ONTARIO JOCKEY CLUB BUYS RACE TRACK SITE

Toronto, June 30.—The Ontario Jockey Club has purchased 100 acres of land between Scarboro Junction and Kingston road. It belonged to John Heal, and the price was $25,000. The newly acquired land is alongside and east of the 120 acres purchased by the Jockey Club a few years ago. It is seven miles from the Woodbine race course. W. P. Fraser, secretary O. J. C., said it was not the intention of the club to vacate Woodbine, which is owned by the club. However, he was unable to say what the future would bring forth.

Librarians Go Climbing.

Brettonwood, N. H., June 30.—Business was suspended today at the American Library Association's thirty-first annual conference which is being held here while the 800 visiting librarians took advantage of the ideal weather to devote the day to mountain climbing.

Too Much for Alexander.

New Orleans, June 30.—Lieut-Col. J. Alexander Pasos, of the Nicaraguan army, who was mistaken for Leon Ling, the alleged slayer of Elsie Sigel, and arrested here yesterday, declared that he will report the matter to the Nicaraguan minister in Washington. Colonel Pasos arrived here yesterday from Washington, where he states he has been the guest of the Nicaraguan minister.

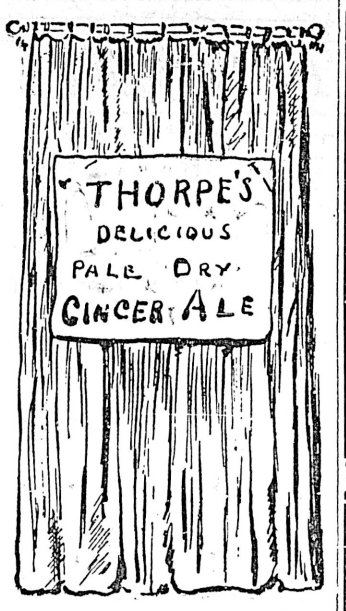

Uncle Sam's Little Balance.

Washington, D.C., June 30.—The excess of Government disbursements over receipts for the fiscal year to date is $93,173,000. This sum is likely to be reduced by today's transactions to approximately $92,500,000. The customs receipts for the year will fall but little short of $300,000,000 and the internal revenue receipts will be about $245,000,000. The gain in customs receipts over last year will be about $15,000,000 with a loss of about $3,000,000 in internal revenue. The surplus for June will probably reach $5,000,000.

SPOKANE HAS MANY EXCURSIONISTS

Will Sail From Outer Wharf This Morning With Over 200 Passengers for Alaska

The steamer Spokane, of the Pacific Coast Steamship Company, will sail from the outer wharf this morning on her second trip to Alaskan ports, including Sitka, Skagway, and other ports beside the glaciers. On the first trip the Spokane was able to land excursionists on Muir glacier, and this will be done again without difficulty, as Glacier Bay is clear of ice. The steamer's passengers number 206, the largest she has ever carried. The Spokane left Seattle last night at eleven o'clock.

BOWLING
736 Fort St.
Between Douglas and Blanchard Sts.
B. C. BOWLING ALLEY CO.

IRON INDUSTRY IN CENTRAL CANADA

Ottawa, June 30.—The British Minister to Sweden has forwarded to Sir Wilfrid Laurier particulars as to the establishment of an electric smelting plant at Trollhatten Falls. It has three furnaces each of 2,500 electric horse-power and a capacity of 7,500 tons of pig iron. The cost of electric energy will be $7.50 per horse-power for the first ten years, and $10 for the second ten years. The ore treated carried percentages of phosphorus ranging from 4-10 to 9-10.

The iron deposits of Ontario and Quebec and possibly the valleys of the Ottawa and the Gatineau present this very peculiarity and Dr. Haanel is extremely sanguine as to the possibility of the establishment of an iron industry in central Canada.

TORNADO SWEEPS NORTH DAKOTA

Grand Forks, N. D., June 30.—Scores of people were injured and twenty-five farm building within a radius of sixteen square miles were destroyed as a result of a series of tornadoes which swept over an area of nearly six miles in Benson county last night. Confirmed reports from Leeds state that eight persons were killed and a report was received from Minnewaukee that one woman was killed, several were injured and the town was destroyed.

Dr. Telford is Reinstated

Vancouver, B. C., June 30.—Dr. Telford has been reinstated by the Medical Council. He had his license cancelled several years ago.

New Bishop of Peoria.

Rome, June 30.—The Pope today confirmed the election of the Rev. Edmund Michael Dunne, Chancellor of the Archdiocese of Chicago, to be Bishop of Peoria, in succession to the Right Rev. John L. Spalding, resigned.

Big Fire in 'Frisco.

San Francisco, June 30.—Fire last night destroyed a block of eighteen buildings in the midst of the new mission business district of the city. The property loss is conservatively estimated at $150,000.

New York Editor Dead.

New York, June 30.—John J. Jennings, for seventeen years the editor in charge of the magazine pages of the Evening World, died today after a long illness. He was 56 years of age and had been engaged in newspaper work since 1875, when he was graduated from the Christian St. Louis Globe-Democrat, and then came to the New York World.

Rabbit Theft Has Result.

Ottawa, June 30.—Col. Graves, an Imperial army officer stationed here, has entered action for $10,000 damage against City Solicitor Taylor McVeity. This is the outcome of a rabbit thieving case before the police magistrate on Monday, in which Graves was accused by McVeity of the theft of a rabbit valued at 20 cents.

Resignation of Engineer Lumsden

Ottawa, June 30.—Hon. Graham returned to Ottawa this morning and had a conference with the Premier regarding the resignation of Chief Engineer Lumsden of the G. T. R. The resignation has not yet been acted upon by a minister.

Kaiser Was Some Irate.

Kiel, June 30.—While Emperor William was highly pleased when his yacht Meteor won the fifty-mile race for big schooners yesterday yet he was dissatisfied with the manner in which Capt. Peters handled the boat and after the race he summarily dismissed him, and appointed Capt. Karp, formerly the skipper of the Empress Iduna, in his place.

Scientific View of Beef

Detroit, Mich., June 30.—Cheaper cuts of beef contain just as high food values as do the tenderloin, porterhouse and sirloin steaks, although they need to be chewed a while longer, because generally tougher, according to a report made today before the biological section of the American Chemical Society, which is holding its annual convention here. Prof. S. C. Prescott, of the Massachusetts Institute of Technology, declared "the results after chewing the cheaper cuts are the same as from that quarter of the platter usually reserved for the guest of honor."

A New York contractor has changed his name from Smolensky to Smolen. The former, he claimed, lost him $100,000 a year.

VANCOUVER VS. WESTMINSTER

Rough Game Looked for When Lacrosse Teams Meet Today

CON JONES' TWELVE EXPECT TO WIN

Fraser River Team Will Not Change Original Line-up

Lacrosse excitement prevails on the mainland and no sport was ever talked so much of in Vancouver as at the present time; since the great New Westminster-Tecumseh game, which has now gone down in history as the greatest exhibition of the national pastime ever seen, lacrosse has taken a firm hold on the mainland and Vancouver fans think that Con Jones has a team that can lift the Minto cup.

The strength of the two rival teams will be tested today when they line up in Vancouver for the second time this year. It is safe to say that this afternoon's battle will be a bloody one, as it is figured that considerable rough work will be the order, as the enmity existing between both teams is great and when they meet today very few polite tactics will be indulged in.

Strong Team for Vancouver

Con Jones has got together a good bunch of players who will figure in today's line-up. "Newsie" Lalonde, the clever inside home, who came west with Regina, will be seen in action today. "Bones" Allen, another one of the disbanded Reginas, will play first home, and Billy O'Brien will play outside; these are a fast trio and should be able to slip a few in on Sandy Gray.

Westminster Line-up Unchanged

Captain Tommy Gifford will make no changes in his line-up today as he says the team has no weak spots.

Dad Turnbull will be on job once again and "Don" Spring will play at third home. Manager Charlie Welsh says the Vancouver men have not a chance to win from the champions.

The teams will line up as follows:

N. Westminster. Position.		Vancouver
Gray	Goal	Gibbons
Galbraith	Point	McConaghy
T. Gifford	Cover	W. Matheson
J. Gifford	1st defence	Springer
G. Rennie	2nd defence	Clark
T. Rennie	3rd defence	Clarkson
W. Turnbull	Centre	Taylor
Spring	3rd home	G. Matheson
Wintemute	2nd home	Hennessy
A. Turnbull	1st home	Allen
L. Turnbull	Outside	O'Brien
Bryson	Inside	Lalonde

The Vancouver Athletic Club are holding a gigantic athletic meet in the Mainland city today.

* * *

The Tacoma marathon is attracting no small amount of interest. Ant. Burn, the Calgary runner, is expected to compete in the professional event, and Con. Connelly, the San Francisco crack, will also come north. Walter Stanley, of Los Angeles, has several good performances to his credit, and is expected to make a good showing. The race is to run the full distance, 26 miles 385 yards, and will be run infoors on the night of July 5th.

* * *

Today is a quiet one in local athletic circles, there being no big matches or field attraction on. Many of the lacrosse fans went over to Vancouver last night, for the big Westminster—Vancouver game.

* * *

The Knights of Columbus are having a big outing at Goldstream today. Foot races and other contests will be on the programme as well as a ball game between the Y. M. I. and the Knights of Columbus.

* * *

Bobby Green, the local Bobby Kerr, is developing into some 220 yards sprinter these days, and is bound to make some of them travel when he goes east to college.

* * *

Packey McFarland and Cyclone Johnny Thompson are booked to fight ten rounds at Hammond on Friday evening

* * *

Night baseball will probably be the fad soon if the demonstrations pulled off in Cincinatti are as successful as reported.

* * *

Stanley Ketchel, the Michigan Assassin, is a 10 to 7 public choice over Billy Papke for the big fight on July 5.

* * *

Billy Lauder and Harry Lombard have finished their training, and are in fine fettle for their twenty-round encounter at North Vancouver tonight. Both fighters will weigh in at 135 lbs., and as both are now at the proper weight, no dispute will arise.

* * *

Orie Finch demonstrated that better time is made in the 220 by dropping one spike shoe twenty yards from the start and finishing barefooted.

* * *

Olson and Roller will try to put each other on the mat at Seattle on Monday next.

* * *

The Beacon Hill nine left on the Charmer last night for Vancouver, where they have an engagement with the Cloverdales of that city. They will play on the Cambie street grounds this afternoon. Those to make the trip are: Scott, Townsley, Gravlin, P. O'Rourke, Meldrom, T. O'Rourke, Jenkins, Long, Clarke, and Shanks.

* * *

The J. B. A. A. crews are working into splendid shape for the big N. P. A. A. O. regatta at Seattle on July 11th and 12th. Coach Dan O'Sullivan has been putting the oarsmen through the paces for some time, and will keep them at it until a few days before the big event.

* * *

Kinsman, the kid goalkeeper of the fast Tecumseh twelve is certainly the best goal custodian that has visited the coast for some time. Time and time again the youngster stopped shots that looked almost like sure scores. Kinsman is only eighteen years of age, and is certainly a wonder.

* * *

Busy baseball teams up around Duncan and the island towns these days. Duncan plays Chemainus on Saturday at Duncan, and Sunday Ladysmith plays Duncan at Ladysmith. Jess Gidley has got some new talent for the Duncan nine which will be sprung in the coming series.

* * *

The Y. M. C. A. have chartered the Princess May, and will run an excursion to the big regatta at Cowichan Bay today.

* * *

Three Turnbulls, two Rennies, two Giffords, two Springs, a Bryson, Gray, and Galbraith make the best lacrosse team in the world today.

Willows Summary.

First race, selling six furlongs—Curriculum, first; Semproelle, second; Old Settler, third. Time 1:16 3-5.

Second race, selling six furlongs—Milpitas, first; Silver Wedding, second; Aristolle, third. Time 1:15 1-5.

Third race, purse, four and half furlongs—Metropolitan, first; Virgie Cassie, second; Fire, third. Time :55 1-5.

Fourth race, The Sidney Handicap, five furlongs—Emma G. first; Redondo, second; Roalta, third. Time 1:01 2-5.

Fifth race, selling, one mile—Merrill, first; Footloose, second; Sir Angus, third. Time 1:43 3-5.

Sixth race, selling seven furlongs—May Sutton, first; Albion H. second; Banposal, third. Time 1:29 3-5.

NORTH WARDS GO TO VANCOUVER

Crack Local Juniors Play Preliminary to Gigantic Lacrosse Match

The North Ward junior lacrosse twelve left last evening for Vancouver, where they play the preliminary to the big New Westminster vs. Vancouver game today.

The Wards will meet the Vancouver Athletic Club twelve, and are confident of defeating the Mainlanders, even on their home grounds. The Wards won from Vancouver on May 24th, and will endeavor to duplicate their victory this afternoon.

Captain Daker's team have yet to suffer defeat this season, as they have been putting up a good brand of lacrosse. They will do all in their power to keep up the winning streak, as the Wards are anxious to finish the season with a clean sheet. Those who are on the team in the junior battle tomorrow have been working hard in training for some few weeks, and are in the pink of condition for the junior battle. The line-up:

Humber, goal.
Sweeney, point.
Dakers, cover.
Noel, 1st defence.
Kelly, 2nd defence.
Brynjolfson, 3rd defence.
Hodgson, centre.
Menzies, 3rd home.
McCarter, 2nd home.
McDonald, 1st home.
Johnson, outside.

The twelve will be accompanied by Manager Russ Humber, Vice-president Clare McConnell, and Secretary Cocker. Mould and Sylvester will go as reserves.

Tickets are selling fast for the Dominion day lacrosse match between the Vancouver and New Westminster clubs. Reserved seats can be obtained at Birks' store, and it looks as if everything will be sold out before the day of the match.

JOHNSON BEATS POOR TONY ROSS

Pittsburg Fighter Defeated in Six-round Go With Negro Champion in Pittsburg

SPAGHETTI HEAVYWEIGHT OUT OF LUCK

Ross Begs for Another Match and Thinks He Can Best Big Jack

Pittsburg, June 30.—Jack Johnson, the colored heavyweight champion of the world, tonight outboxed Tony Ross of New Castle, Pa., in a six-round contest given under the auspices of the National Athletic Club at Duquesne Gardens.

While the bout was declared a draw on account of the state law prohibiting the rendering of a decision in boxing tournaments, public opinion concedes that Johnson had the better of the go from the start to finish. It was a fast fight, both men up and coming during the entire six rounds.

Johnson, while not in the best of condition, showed well in the fighting. The audience shouted wildly whenever Ross landed a telling blow, but hooted Johnson for his aparently rough work in the clinches. Referee Jimmy Dime said after the fight that Ross did remarkably well in the face of the fact that Johnson had it over him in weight and height. Johnson refused to talk after the mill, while Ross anxiously begged for another opportunity to meet the colored fighter.

The preliminary bouts were rather tame affairs. Johnson and Ross entered the ring nearly together. Johnson's reception was rather cool. Some parts of the house hissed when the big negro grinned over the audience. Ross smilingly acknowldged the applause of his home delegation and bowed to the rest of the house.

Fight By Rounds

Round 1.—Johnson led left to stomach and repeated this blow with telling effect. Ross led right to jaw, Johnson sent two lefts to Ross' chin drawing blood from Ross' nose with left and right to face. Johnson staggered Ross, who went to his knees, taking the count of nine, the bell saving him. It was Johnson's round.

Round 2.—The men rushed to the centre of the ring, Ross leading with left to jaw, Johnson acknowledged the blow with a smile and sent a wicked one to Ross' jaw, following it with a counter to the stomach. Ross' mouth bled freely. Johnson repeatedly swung a wicked left into Ross' face, rocking the Newcastle boxer off his legs. The men held on in centre of ring, Johnson landing lefts to face with good effect, until the bell rang. Johnson's round.

Round 3.—Ross from the tap of the gong tried to make a better showing than in the two previous rounds. With a right to stomach and left to the jaw he removed the grin from Johnson's face. Ross showed his extreme nervousness. Johnson continued the use of his vicious left swing. Ross stumbled and slipped to his knees, taking the count of 8 for a rest. With a right to stomach Johnson finished the round with Ross hanging on. Johnson's round.

Johnson the Aggressor

Round 4.—Johnson came up smiling with Ross in distress and goaded the Newcastle boxer by remarks concerning his bloody nose and mouth. Johnson led with left to jaw and the men clinched. Ross made a vicious right swing to Johnson's jaw. This was the first effective blow Ross landed. The round ended with the men in a clinch.

Round 5.—Ross came up apparently groggy. With a vicious left swing to the face, Johnson rocked Ross. Ross tried bravely to stand off the big black, but there was no chance. Johnson was in and out like a flash and Ross could not stop him. The gong saved Ross from further cruel punishment. Johnson's round.

Round 6—Ross came up willingly and led with left uppercut on Johnson's jaw. Johnson returned a right uppercut, closing Ross' eye, the men going in a clinch in centre of ring, with Johnson beating Ross unmercifully with his left swing so effectively in the previous rounds. The gong rang with Ross hanging on. Johnson's round.

KYLE WHITNEY LUCKY TO DRAW WITH BAKER

From all accounts Kyle Whitney the colored slugger, was very lucky to receive a draw decision in his recent bout with Howard Baker at Sacramento, Cal. Baker displayed the more cleverness and had Whitney on the defensive throughout the closing rounds of the go, and when Referee Johnson declared the fight a draw the decision was questioned by nine out of ten of the spectators.

HILARIOUS THIRD KEENE HORSE TO WIN TIDAL

This historic Tidal Stakes run at Sheepshead Bay, N.Y., with a valuation of $20,000 was won by James R. Keene's colt Hilarious.

This is the third consecutive year that the vice-chairman of the jockey club has won this event. In 1907 Peter Pan carried off the honors, while last year the mighty Colin won the event. By a strange coincident every one of the Keene colts were held at prohibitive odds—Hilarious, like Peter Pan and Colin being less than even money.

At Paris on Saturday night Sam McVey of California was awarded the decision in the fifteenth round over Jim Barry, the heavyweight puglist of Chicago. The referee disqualified Barry for fouling. The match was scheduled to go 20 rounds.

* * *

Portland squeezed one over on Vancouver, 2 to 1, in a tight game.

WILL BET ON THE "NOD" DOWN SOUTH

Los Angeles, Cal., June 30.—The refusal of the requests to use Williams Park track at Oakland for the purpose of holding automobile races and the expenditure at Santa Anita of thousands of dollars for improvements are taken as ocular demonstration that racing will go on as usual during the coming winter season.

Thomas Williams, who for years has been the bulwark of California racing, went on record yesterday that in his opinion the present cases pending would be the means of knocking out the anti-betting law. He also stated emphatically that it was because of this optimistic view that he was having Williams Park put and kept in racing shape.

It is a well-known fact that Williams has been quietly corralling all the small blocks of stock in the Emeryville track, paying par value for the same.

George Rose, who is one of the largest stockholders in the local track, prior to leaving for the east, stated that racing would surely be resumed at the Baldwin course next winter, and that "oral" betting would prevail.

MUSGRAVE BEST BOOTER AT HAMILTON MEETING

Jockey Musgrave seems to be the best rider piloting horses at the Hamilton meeting. Last week the boy who rode so successfully for Pilot Chinn a year ago won three races, and all were heavily supported.

According to Toronto advices, Bill Hilton, of Toronto, a soccer enthusiast is making arrangements for a tour of the Pacific coast this summer with a powerful team, selected from the Toronto and District F. A. The schedule includes games in Vancouver, Victoria Nanaimo, New Westminster, Revelstoke Seattle exposition, Bellingham, Eeverett and Tacoma. Two games in Vancouver will likely be played.

* * *

Young Pierce of Philadelphia, had the better of a six-round bout with Jim Kenrick, the champion bantamweight of England, at the National Athletic club, Philadelphia, on Saturday.

Gus showed class in the sixth session by striking out two men after Coleman had made second on a two-bag rap.

* * *

Bill Hurley was walking on air after the game. Not being an expert analyzation, Bill did not attempt to express his emotions.

* * *

Johnny Bender was the busy flychaser yesterday. Six times Johnny was called upon to trap the high ones, and he delivered each time.

* * *

Crocker took up the club for Thompson in the ninth and came through with a good hit. But those who followed could not meet the emergency.

* * *

Aberdeen downed Spokane yesterday by a score of 5 to 4. It took eleven innings.

BLACK CHAMPION ACQUIRES TITLE

Little Arthur Is Now Present Holder of Mind-changing Belt by Right

HAS BROKEN PROMISES RIGHT AND LEFT

Late Dope on Heavyweight Situation Which Is Getting Extremely Critical

Chicago, June 30.—Jack Johnson has annexed a new title. You have to concede that he is worthy of carrying the mind-changing championship as well as the one he grabbed from Tommy Burns over in Australia.

We haven't had a champion fighter since John L.'s day that can shift his position as quickly and as easily. The way he passed up Tony Ross, declaring he wanted nothing more to do with short fights in the summertime, only to turn about and pass by Al Kaufman, the big Pacific coast heavyweight, taking on Ross in the same breath, is about the most amazing thing that a champion has done since Tommy Burns took hurried flight out of England with the big black hot on his heels.

Johnson is Changeable

Johnson's head must be in a whirl when he thinks of the possibilities of the near future. He will get $2,000 for punching Tony's head Tuesday night in Pittsburg, and after that he was to have started some mild summer training for his battle with Kaufman out on the coast. This preparation, too, was to have been useful for his match with Stanley Ketchel, which is still on, subject, of course, to a Ketchel victory over Billy Papke in the Colma arena a week from Monday afternoon.

Now that he hasn't got the Kaufman match on his hands and stands a chance—it may be a rather dim one. It is true, but it is a chance—of losing Ketchel through a Papke victory, there isn't much for Johnson to look forward to in the way of scraps.

He passed up Kaufman because "Big Al" and his followers refused to give him everything in sight. At least that is the status of the case right now. Jack learned some tricks about how to get the money from Tommy Burns and is trying to put them into practice. In the case of Kaufman he has yet to get away with it. He wants a percentage of the Kaufman end, a fat bonus from the club and all of the motion picture rights. Nothing doing, said the Kaufman representative, and the match was off in a hurry.

Result May Be a Big Surprise

Of course, mighty few are figuring that Ketchel will be returned anything but a winner over Papke July 5. He looks like a legitimate 2 to 5 shot if ever there was one in the prize ring, but fighting is a queer game and like baseball it is never a safe gamble. Even Brooklyn wins a baseball game once in a while and if Papke should be fortunate enough—it's not Luck, exactly—to get in first punch, just as he did last fall in Los Angeles, Mr. Ketchel will be whipped and Mr. Johnson will be without an opponent.

There is no particular reason why Johnson should not take on short fights at the price. Where is easier money to be obtained? And as long as scrapping is his business, why should he not keep himself in condition and fight when the opportunities arise? All other champion's did this and surely Johnson is no better than the others.

There is one thing about the black man that stands out, no matter what contrary arguments may be handed out. He hasn't the fear of any man in his heart. They have said that Jeffries would scare him into jumping over the ropes if he ever got him to crawl inside an inclosure with him. Money talks, and months and months ago Jack had his coin up in support of a challenge to Jeffries. That didn't show any fear and Jeff then was 50 per cent. better than he is now or ever will be again.

At Heraldsburg, Cal., on Saturday a world's record was broken by Ralph W. Rose, champion shot-putter of the world at the Water carnival. He put the 16-pound shot 54 feet 4 inches, breaking his own record of 50 feet 1¾ inches.

Want Colin Returned to Castleton

Lexington, Ky., June 30.—With the announcement from England that James R. Keene's unbeaten four-year-old colt Colin will never face the barrier again, local thoroughbred breeders and turfman will have the grandson of the mighty Domino returned to this country and placed in the stud at the Carleston farm in this country, where he first saw the light of day, and where his grandsire and sire before him made their great stud careers.

Has Invested Fortune

The fact that Mr. Keene, during the past few years, has invested a fortune or more than $100,000 in English bred broodmares for the purpose of mating them with the grandsons of Domino, leads turfmen to believe that Colin will not be sold in England, but retired to the stud in this country. It is argued that he will have even a better opporunity in the stud than he would have in England, as his owner has already secured the pick of the present-day English broodmares to which he could be mated.

Was a Lucky Stroke

It was a lucky strofe for Mr. Keene, that day in June, 1892, that the yearling son of Himyar and Mannie Gray was knocked down to him on a bid of $3,000, made by his son, Foxhill Keene, then junior member of the racing and gambling firm of James R. and F. P. Keene. The fact, however, that only two bids, one of $2,000 made by David Pulsifer and the Keene bid of $3,000, was made for the full brother to Correction, made the Wall Street magnate a little dubious about the animal.

Seeks Major Thomas

He sought Major B. G. Thomas, the breeder of the youngster, to ascertain it there were any hidden blemishes which had not been made known by the auctioneer. Major Thomas' reply that he never sold a yearling without first making known any defects, hidden or otherwise, was a sufficient guarantee that the colt was perfectly sound, and thus for a mere song Mr. Keene secured a horse that was destined to be the greatest race horse of America and the founder of one of the greatest families known to the American Stud Book.

Domino Won $203,000

During his career on the turf Domino won $203,000, and after being retired to the stud sired such horses as Commanda, Disguise and Cap and Bells, themselves big money winners in this country and England. Commando and Disguise in turn sired such famous performers as Colin, winner of $185,856; Peter Pan, winner of $117,895; Superman, winner of $28,736; Celt, winner of $29,065; Restigouche, winner of $16,300, all sired by Commando; Maskette, winner of $53,185; Court Dress, winner of $36,630; Helmet, winner of $34,706; Melisanda, winner of $14,000, and Pope Joan, winner of $7,000, all sired by Disguise.

Progeny Earn $534,368

The above ten grandsons and granddaughters of Domino have earned $534,368 so far on the turf, and several of them are still racing. This, cupled with the huge amount won by Domino and the big prizes captured by Commando, Disguise and Cap and Bells, it will be seen that Mr. Keene has won far in excess of a million dollars with Domino and his sons and daughters and grandsons and granddaughters.

NEW MILLION DOLLAR BALL GROUND OPEN

Pittsburg, Pa., June 30.—There was almost a riot at noon today, when the gates of Forbes Field, the new million dollar grounds of the Pittsburg National League Baseball Club were thrown open for the game with Chicago, which is to inaugurate the park this afternoon. Additional policemen had to be summoned to restore order. The line had been waiting nearing six hours for an opportunity to obtain desirable seats. The railroads have been running special trains from points in western Pennsylvania, eastern Ohio and West Virginia another big attraction in Pittsburg being the six-round bout tonight between Jack Johnson, the champion heavyweight, and Tony Ross, the Italian prize-fighter.

Deputy Minister Resigns

Quebec, June 30.—Simeon Lesage, deputy minister of public works, has resigned and will be succeeded by Mr. Silvestre, who has been secretary of the agricultural department for the last eighteen years.

SOCIAL AND PERSONAL

Mrs. C. W. Rhodes will be one of Friday's hostesses.

* * *

Mrs. Holmes, Quadra street, is one of the week's hostesses.

* * *

George Carter, of Carter & Co., has gone to Banff on a short holiday trip.

* * *

F. Dinsdale went over to Vancouver last evening on the Charmer.

* * *

E. A. James leaves on Friday on his return to Winnipeg.

* * *

Mr. and Mrs. F. H. Ross leaves today on a visit to Portland, Ore.

* * *

Mr. A. C. Wilby, from Alert Bay, is visiting in the city.

* * *

Mrs. W. S. Herrington, from Toronto, is enjoying a visit to Victoria.

* * *

Mrs. J. T. Goldberg, from Tacoma, is visiting with friends in town.

* * *

Mr. Edmund J. Cartier, from Seattle, is in town on a business visit.

* * *

Mr. John Corton, from Nebraska, is staying in town for a few weeks.

* * *

Mr., Mrs. and Miss Jeraldine, from Edmonton, are visiting friends in town.

* * *

Mr. Mrs. and Mr. H. J. Colman, from Seattle, are enjoying a visit to Victoria.

* * *

Mr. and Mrs. J. W. Sawyer, from New York, are on a short visit to Victoria.

* * *

Mrs. M. C. Sinclair, and daughter, left last evening on a visit to relatives in Winnipeg.

* * *

The Misses H. and E. Youngren, from Spokane, are visiting in Victoria for a short time.

* * *

Mrs., Mrs. and Miss Tillcome, from Regina, Sask., are amongst the latest arrivals in town.

* * *

Mrs. Carsons, accompanied by her two daughters, left last night on a visit to friends at Fernie.

* * *

Mr. and Mrs. S. McClure left yesterday via the Northern Pacific for Los Angeles, Cal.

* * *

W. Lenfesty went over to Vancouver on a short holiday trip last night on the Charmer.

* * *

Miss Newt left yesterday for Vancouver, where she will spend the holiday.

* * *

Mrs. Bebbington, of Government street, will receive on Friday, and not again until October.

* * *

J. D. McNivin, fair wage officer of the Dominion government, arrived in the city yesterday.

* * *

R. P. Cronhelm, of Dublin, arrived in town after a pleasant trip and registered at the Dominion hotel.

* * *

Mr. W. A. Tackett, of Duncans, is in town for a few days and is registered at the King Edward Hotel.

* * *

Mr. and Mrs. H. H. Allen and son of Chemainus, are guests at the King Edward hotel.

* * *

Miss Claudia Hall, daughter of ex-Alderman Richard Hall, has returned from Toronto, where she has been attending Havergal College.

* * *

R. P. Butchart, general manager of the Vancouver Portland Cement company, left last night on a trip to Winnipeg.

* * *

F. H. Reynolds, manager of the Wellington Coal company, left yesterday via the C. P. R. on a business trip to Winnipeg.

* * *

Mr. J. Wm. Vipond, of Nanaimo, B. C., is spending an enjoyable holiday in this city; he is registered at the King Edward.

* * *

Mrs. (Capt.) Bucknam returned a few days ago from a three months visit to her old home in the province of New Brunswick.

* * *

Mr. R. Hathaway, from Vancouver, who has been in town for the past few days on business, returned last night to the Terminal City.

* * *

Captain J. B. Paget, from Vancouver, who has recently come out from England, arrived in town last night and intends spending some time here.

* * *

Mrs. M. Taussig and daughter, of New York, who have been staying at the Empress, left yesterday via the Northern Pacific on their return trip.

* * *

Miss Nellie Lugrin will leave this afternoon for Toronto to visit her sister, Mrs. J. Macdonald Fahey. She will be away for several months.

* * *

Miss Lizzie Hills, Mrs. B. Hills and two children, are among the many guests who registered at the King Edward hotel from Nanaimo, yesterday.

* * *

J. H. Greer arrived in town yesterday morning after a short business trip to Vancouver and registered at the Dominion.

* * *

Mrs. Jenkins, school trustee, has returned from her two months' visit in California. She is much better as a result of the trip.

* * *

Among the recent arrivals in town from San Francisco were Miss L. F. Adams, Miss S. A. Adams and Miss S. A. Young, all of which registered at the Dominion.

* * *

Mrs. Simpson will hold a flannel dance tomorrow evening. Miss Thain's orchestra will attend. No invitations will be issued, but all pupils and friends are invited.

* * *

James Keane left yesterday via the Northern Pacific for New York, whence he will sail on the White Star liner Adriatic on a three months' trip to the old country.

* * *

Rev. Hermon Carson leaves today via the Northern Pacific to attend the international sessions of the Christian Endeavor association, which this year meets at St. Paul, Minn.

* * *

Mr. and Mrs. D. C. Maddock, who have been staying at the Empress for some weeks, have taken the furnished cottage of Capt. Gould on Simcoe and Clarence streets.

* * *

Mr. J. Allan Wetmore, manager of the Imperial Bank, Regina, with Mrs. Wetmore and son, are guests of Mrs. Wetmore's brother, Mrs. Tinning, Beacon Hill.

* * *

Mr. and Mrs. James Firwalden, from London, England, who have been on an extended visit to friends in Vancouver, came over last evening to Victoria, where they will spend a few days.

* * *

F. E. Mayhew, of the Nootka Marble company, leaves today via the C. P. R. and the Allan Line steamer Virginian on an extended trip to the old country.

* * *

R. Holmes, until recently a member of the Edmund Gardiner company, leaves today via the C. P. R. and the Allan Line steamship Virginian for the old country.

* * *

Among the passengers on the Charmer for Vancouver last night were T. Roberts, Miss Harper, J. Hay, W. O'Rourk, C. J. Wood, W. Kinsman, Miss Stinson, Mrs. Fairfull and E. B. McKay.

* * *

Miss Herma Wilson left on the Princess Charlotte today for Seattle, where she will resume her position with Crane Co., after thoroughly enjoying a month's vacation with her old friends in Victoria.

* * *

Captain and Mrs. Parker-James, from Colchester, England, who are spending a few days in town, will leave at the end of the week for the A.-Y.-P. Exposition at Seattle and will then proceed to England via New York.

* * *

R. V. Harvey, warden of the University school, leaves today via the C. P. R. for New York, whence he will sail on the Oceanic on a holiday trip to England. He will be accompanied as far as New York by F. A. Sparks, one of the staff of the University school.

* * *

Mrs. J. B. Hobson was hostess Tuesday afternoon at one of the most charming social events of the season. Her beautiful residence, "Gisburn," with its lovely surroundings, was thronged with the fashionable people of Victoria. Mrs. Hobson received her guests looking very lovely in a white lace gown, with amethyst ornaments. Her handsome reception rooms and conservatories were all thrown open to her guests, who spent a most enjoyable afternoon. The tearoom, where a number of prettily gowned young ladies dispensed refreshments, was artistically decorated with pink peonies. A great many guests were present.

* * *

The last of the June weddings took place last night in St. Barnabas church, when the Rev. Ernest G. Miller united in marriage, Miss Margaret Hodgson, daughter of Mr. Hutchinson Hodgson, of Fernwood Road and James H. B. Anderton, of Victoria, and few have been prettier.

The bride who was given away by her father, looked graceful and sweet in her gown of white net over silk. She carried a shower bouquet of bridal roses and lilies of the valley.

Miss Lottie Pearce and Miss Elizabeth Hodgson were the bridesmaids. Miss Pearce wore a frock of white organdie over blue and Miss Hodgson one of the same material over pink. Both carried bouquets of white and pink carnations.

The best man was Mr. Charles Stokes. After the ceremony a reception was held at the home of the bride's father. The couple received the congratulations of their friends under a large bell of white roses.

The dining room and table were very beautifully decorated with a profusion of crimson and pink roses.

A large number of presents testified to the popularity of the young couple.

AMUSEMENTS

New Grand Theatre

For the Dominion Day holiday, Manager Jamieson has a splendid and attractive bill of variety at the Grand theatre, which will be shown at the matinee and in the evening twice. The prize winning English setter, Ben, will be an attractive feature for the children this afternoon. Mlle. Loretta and Ben present nine exceptionally fine poses representing famous hunting pictures. The figures look like marble, as the dog is naturally white in color while the lady's costume is arranged to match the color of the dog. The act is exceptionally attractive.

Eva Mudge shows some of the quickest changes in her soldier scene. Appearing as an officer, she walks around a canvas stage front and comes out on the other side as a hospital nurse, having effected a complete change of costume. The change occupies four seconds. Her other changes are equally swift. Several songs accompany the act.

The whistling virtuoso Jere Sanford and character songster, whistles a tune or two and then the audience belongs to him. He follows his advantage with some new comedy and concludes a good act with three songs in which his voice is heard to the best advantage.

Two full-stage settings are in the two farcical comedies both of which are full of laughter for the audience. The illustrated song this week is "Some Day," and Mr. Price has seldom had one which suited his voice better. The motion picture shows a Salvation Army rescue of Salvation Nell. The whole show is most attractive and full of variety.

Pantages Theatre

Real classy comedy by Lorimer Johnston and Caroline Cooke, superb harp playing by Signor St. Claire, refined and catchy songs and dances by Trixeda & Robinson and novelty juggling and cartoon drawing by Wallace in conjunction to very pleasing illustrated song and moving pictures together forms a programme that in very pleasing.

St. Louis, Mo., has developed into a very important glass centre.

FORTY-SECOND BIRTHDAY TODAY

Throughout the Dominion Another Milestone in Canada's History Will Be Celebrated

Today the Dominion of Canada celebrates its forty-second birthday. On July 1, 1867, the great project of confederation became an accomplished fact and today Canada stands forth a nation the best and biggest of His Majesty's overseas' Dominions. Forty-two years ago the then provinces entered into confederation with misgivings but the progress of time has fulfilled the promise made by the advocates of the idea and today all loyal Canadians have reason to rejoice at the prosperity which has favored the Dominion from coast to coast.

British Columbia did not enter into the bond of union until July 20, 1871, though five years earlier the two colonies of Vancouver Island and British Columbia (formerly New Caledonia) were united and designated as British Columbia.

Everywhere throughout this province today will be celebrated as it deserves to be and nowhere will the spirit of rejoicing and thanksgiving be more manifested than in Victoria.

As a general holiday today everyone will be in a position to celebrate. There will be amusement for every individual whatever may be his particular desire and with real celebration weather assured the day will be what it should be, Canada's premier holiday.

Legal Aid Offices

Toronto, June 30.—At last night's meeting of the Congress of Women, Fraulein Ide Kirch, of Germany, made a warm appeal to the women of Canada and the United States for the establishment of municipal legal aid offices, under the direction of men and women lawyers.

Wrights Are Unsuccessful.

Washington, June 30.—After making several unsuccessful efforts to get his new aeroplane into the air yesterday, Orville Wright made a short flight, encircling the Fort Meyer aerodrome. Lack of power due to a loose sparker was finally determined by the two Wright brothers as the cause of the refusal of the machine to fly for more than a few hundred feet beyond the end of the starting rail.

You Spend Money For Clothing

FIT-REFORM

WHY NOT GET THE MOST FOR IT? WHAT MAKES GOOD CLOTHES?

WORKMANSHIP FIRST—That is what makes a garment keep its shape, look well and wear well. Fit-Reform has the best trained corps of hand-work tailors in Canada. Every garment is made and finished as if our whole reputation depended on that garment.

STYLE must be considered — You want correct fashions — clothes of class, down to date. Wear Fit-Reform, and wherever you may live or travel, you have the positive assurance that you are correctly garbed.

FIT—If you are still one of those who think themselves "hard to fit," remember that Fit-Reform has evolved a system whereby the customer can get just the Fit-Reform Suit or Overcoat that fits his individual physique as well as if it had been cut to measure.

Two Englishmen bought for $1,500,000 the property of the Union Dime Savings Institution, facing Greeley Square in New York City.

GRILL ROOM OPENS

Supper Room at Empress Hotel Meets With Instant Favor

The Empress grill room since its opening Tuesday night has been crowded almost to capacity and has at once sprung into popularity. The grill room is situated in the basement of the hotel and accommodates about a hundred guests. It is charmingly finished in mission style and the high wainscotings, in dark wood with the occasional patches of color lent by good hunting prints presents a somewhat old world appearance that is just as pleasing as the very excellent cuisine which the chefs at work at grills and range in full view of the diners, provide.

The grill room is open from noon until midnight and will cater to theatre and supper parties excellently.

There are no closed boxes but a row of semi-private compartments are provided along the south side of the handsome room.

The opening was delayed through the non-arrival of the grills and ranges from New York and the trouble experienced in providing proper ventilation. Everything is complete now, however.

Chinese Sailor Vanishes.

Vancouver, June 29.—The disappearance of Fung Nip, a Chinese sailor off the Lonsdale, was reported to the police this morning by the chief officer. The steamship returned from Mexico, and Fung Nip was safely aboard yesterday. But he has mysteriously disappeared, and the other Chinamen profess not to know his whereabouts. He is 26 years old, 5 feet, 4 inches tall, fat and jolly. The principal mark of identification is a large black mole under the right eye.

Canada's New Loan.

London, June 29.—The Bank of Montreal is underwriting today for issue on July 1st, $32,500,000 of Dominion government inscribed stock at 3½ per cent., the issue price being 98½. The price is generally considered very favorable to the government, and the successful underwriting of such a large loan, the largest ever issued by any colonial government, reflects great credit on Hon. W. S. Fielding, and is an achievement of which his advisers, the Bank of Montreal, and Canada may well be proud.

Died While at Cricket.

Winnipeg, June 29.—While playing in a cricket match on the C. P. R. grounds last evening, Harry E. Alcock was seized with heart failure and fell dead. Alcock was a married man, and had been in the service of the C. P. R. for ten years at chief rating clerk in the local freight offices.

TAX UNPOPULAR

Senators Are Deluged With Protests Against Proposal to Levy on Corporations

Washington, June 29.—A flood of telegrams is pouring in upon senators in opposition to the corporation tax amendment. Most of the telegrams come from persons interested in building and loan associations, but practically every character of corporate operations is represented.

Most of the senators received from 12 and 50 telegrams today, and some at least a hundred. It became evident that there is an organized movement through the country in opposition to the corporation tax amendment. In view of the vehement tone of the protests and the fact that the telegrams are from business men highly respected in their communities, some senators who are pledged to vote for the administration amendment said that they are feeling some concern as to the wisdom of their course.

It is admitted on the floor of the senate that there are comparatively few members who favor the corporation tax amendment, in spite of the fact that a canvass shows 52 Republicans will vote for it. Were it not for the president's support of the proposition, it could not probably be adopted unless there comes a change of sentiment throughout the country, it would not surprise many members of congress if the corporation tax should be abandoned in conference, and the inheritance tax feature, which was adopted by the house, should be restored. In the event of such action, the indications are that the senate would vote in acquiescence.

Homing Pigeons to Compete.

Topeka, Kans., June 29.—Two hundred homing pigeons from Milwaukee and Racine, Wis., were released here today by Josiah Degalleke, of Milwaukee, representing the American Federation of Homing Pigeon Fanciers, in a contest for diplomas awarded by the federation.

SALTON SEA WILL EVAPORATE BY 1925

Los Angeles, Cal., June 29.—According to a report issued by the U. S. Geological Survey, the great Salton Sea will completely disappear through evaporation by 1925. The sea, which was formed a few years ago by the overflow from the Colorado River into a depression in the Imperial Valley, is about forty miles in length and in places fifteen miles wide. The basin is 275 feet below sea level and the water in places is nearly 100 feet deep.

BANK PRESIDENT CARRIED OFF A ROLL

Willemstadt, Curacao, June 29.—It was learned here today that the president of one of the banks of Maracaibo Venezuela, recently defaulted with $60,000. He abstracted the funds and came to Curacao, but remained only long enough to transfer to another steamer, which is now carrying him beyond Venezuelan jurisdiction. The cashier and the secretary of the bank arrived here today looking for the missing president. The credit of the institution has not been affected by the defalcation and it continues to do business.

During the twenty years from 1870 to 1890, divorce in the United States increased about three times as fast as the population.

VICTORIA REAL ESTATE

Gordon Head District

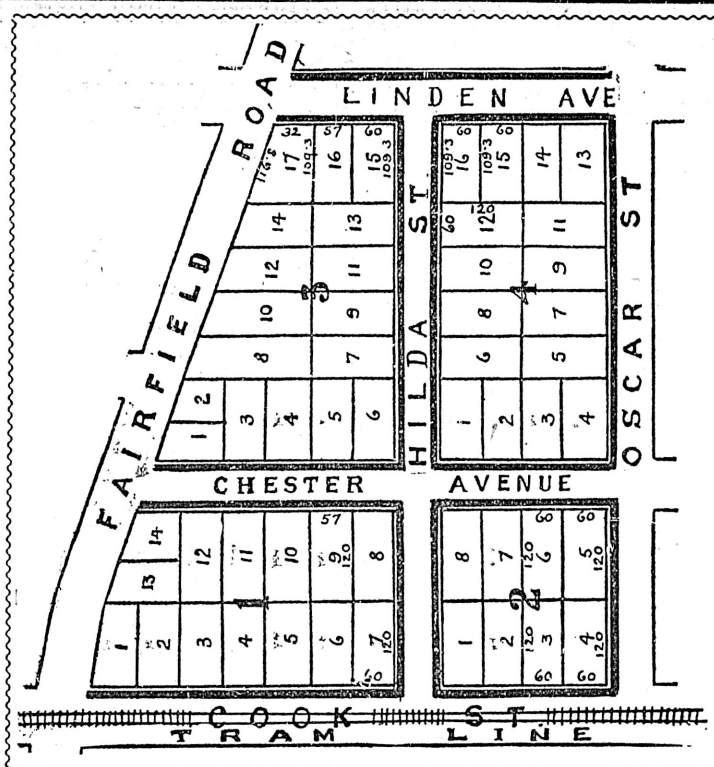

About 20 acres, having about 800 feet sea frontage. Small cottage, stable, chicken houses. Land is most suitable for fruit; about 6 acres improved. There are 600 selected trees, 300 currant bushes, 100 gooseberry, one-quarter of an acre asparagus, one-quarter of an acre strawberries, besides raspberries and rhubarb. This property is close to school and post office, and only 5 miles from Victoria City Hall, and offers a pleasant and profitable site for a home, with one of the grandest views on Vancouver Island.

INTERNATIONAL STUDENT PLAN

Interchange Between Britain, Canada and United States Proposed

London, June 30.—A scheme for the interchange of students between the United States, Canada and the United Kingdom rivalling in importance that established under the will of the late Cecil Rhodes, is in process of formation with every prospect of success.

The idea, which was supported by an influential committee, headed by the Rt. Hon. H. H. Asquith, Prime Minister of Great Britain, and Lord Strathcona, High Commissioner of Canada, and several of the heads of the chief universities of the United iKngdom with the endorsement of the presidents of the Canadian and American universities, aims at providing opportunities to students of three countries to obtain some real insight into the life, progress and customs of other nations, with a minimum of inconvenience to their academic work and the least possible expense.

The promoters suggest the provision of certain travelling scholarships, the selection for which should be along the lines of the Rhodes scholarships. The selected candidate in addition to his academic qualifications must be what is popularly known as "an all-around man." Twenty-eight of these scholarships are proposed, fourteen to be available for universities in the United Kingdom, ten for American and four to Canadian. The total cost is estimated at $85,000 for each period of three years, for which it is proposed the United Kingdom shall contribute $36,000, the United States $22,500 and Canada $9,000. The committee announced that they have been given to understand that the United States purposes to provide her share as soon as the amount required for the United Kingdom is guaranteed.

Principal J. W. CORRIG, M. A.

EMPEROR WILLIAM SPEAKS FOR PEACE

Paris, June 30.—The Figaro today publishes an account of a conversation between Emperor William and Baron Destournelles de Constant, president of the French parliamentary arbitration group, held recently at Kiel.

In his talk, the Emperor insisted that his policy was one of peace, and said that the battles of the future would be in the economic, industrial and commercial fields.

Great Britain was now traversing a period of acute nervousness, but he predicted that this would disappear when the country realized it could regain its lost economic ground, not by a destructive war, but by an increase in its productive activity.

He showed great interest in the French experiments in aviation, but said he believed that for the present dirigible balloons had incontestable advantages over aeroplanes.

SIBERIAN PRISONERS KILL THEIR GUARDS

Seattle, June 30.—A cable despatch from Nome, Alaska, describes a bloody outbreak of Russian political prisoners in the Yakutsk district, Siberia, and the flight of the mutineers across the wilderness toward Bering Straits, in an effort to reach Alaska.

The despatch says: "Advices from Vladimir station of the Northern Siberian Company across Bering Straits state that a band of prisoners in the Yakutsk district revolted, killed the guards and started on a retreat of 2,000 miles for East Cape, where they planned to take small boats and make the mainland of Alaska 36 miles away.

"Captain Kalinnikoff, acting governor of the district, ordered Cossacks to take the prisoners. The fugitives in ambush killed four Cossacks and wounded twelve others, forcing them to retreat.

"Approaching an Esquimaux village the convicts pressed the natives into their service and confiscated food, clothing and tools. When the Esquimaux resisted a number were shot and the camp was left desolate. Captain Kalinnikoff says the convicts are criminals of the worst character."

AUTO SPEED CRAZE GETS MORE VICTIMS

New York, June 30.—Thomas B. McEnroe, a policeman, was instantly killed and four men injured, one fatally, when a borrowed automobile in which they were riding was overturned while on the way to Coney Island today.

The car had been borrowed by George Olney from his cousin, Miss Clara Kryer, of Brooklyn, its owner, and Olney was giving the other men a ride. The car was going at high speed when a passenger stepped from a trolley car directly in front of it.

A sudden twist of the steering wheel to avoid the passenger sent the automobile skidding against the curb. The car was overturned and its occupants thrown out or pinned under it. Policeman McEnroe's neck was broken and John Brohan, another of the riders, suffered concussion of the brain and internal injuries from which he may not recover. The car was wrecked.

SUFFRAGETTES UP BEFORE MAGISTRATE

London, June 30.—The 112 women arrested last night in connection with the thirteenth attempt of the suffragettes to obtain access to Premier Asquith by deputation, were brought up in the Bow street police court this morning. Superintendent Wells and Inspector Jarvis, the chief officers of the defensive forces, were in court with a large number of police witnesses. Sir Albert B. Rutzen, chief magistrate of the Metropolitan police courts, heard the charges which were three-fold, namely, obstructing the police, assaulting the police, and wilful damage.

A majority of the prisoners who have been balled out, arrived at court armed with valises of all kinds, in preparation for their expected incarceration in Holloway jail. The waiting room adjoining the court was crowded with women friends of the prisoners who when tired standing, sat down unceremoniously on the floor at the expense of their silk and satin skirts. Many of these women had brought with them, bottles of tea and packages of sandwiches and the waiting room looked like a picnic.

After lengthy arguments for and and against the question of their rights to present a petition to the premier which was raised by Mrs. Pankhurst, the magistrate adjourned all the cases, 166 in all until July 9, and the women were released on their own recognizances.

TENNESSEE IS NOW IN DROUGHT BELT

Nashville, Tenn., June 30.—The statute extending the provision of the "four mile" law to the entire state becomes effective at midnight tonight. Under the provisions of this law it will be unlawful to sell or tipple liquors, wines, ales or beer as a beverage in Tennessee.

The manufacturers' bill prohibiting the manufacture of liquors does not become operative before January 1, six months more time having been given the brewers and distillers than was given the retailers by the legislators. Gen. Jefferson McCarn, attorney general of Jefferson County, takes the position that liquors cannot be sold in Tennessee after midnight, either wholesale or retail. He says that his office will vigorously prosecute all violators.

A number of clubs have been organized in the larger cities of the state whose members will keep individual stocks of liquors to be supplied by dealers outside the state. Nashville is crowded today with hundreds of people from nearby towns taking advantage of the fact that all kinds of liquors are being sold at slaughter prices, and the saloons are doing a large business.

TERRORIST BOMB KILLS POLICE AGENT

Tiflis, June 30.—Marie Bakhtadze, who had been prominent as an agent of the political police of Tiflis was killed by a bomb here yesterday, which had been sent to her by an unknown person in a basket of cherries.

Madame Bakhtaze was the widow of a man who formerly was prominent among the revolutionists. He turned traitor, however, betrayed many of the revolutianary leaders and then entered the police service and was killed last autumn.

Out of revenge his widow became a spy and devoted herself to hunting down every one responsible for her husband's death. For several weeks past she had not ventured outside the police station.

WORKMEN OBJECT TO NEW MACHINERY

Utica, N. Y., June 30.—Notice was posted in the Remington Typewriter works at Ilion, yesterday, that commencing with July 1, all the establishment would be closed until further notice.

The typewriter works employ 2,100 people, mostly men, and the weekly payroll is about $30,000 a week. Some time ago the company attempted to introduce a machine for accomplishing a part of the work of aligning the letters on the type bars of the machine. The men engaged in aligning objected to this and struck and shortly after the assemblers quit work.

Conferences have been held between the company and the striking workmen but they have not resulted in settling the differences and the shut down is the result. It is not believed that the company will again open the factory until it can do so under its own plans.

Coles Meets His Reward

New York, June 30.—Stanley C. Coles, the wireless operator on the steamship Slavonia, who bravely sent the "C. Q. D." mesages for help when his ship ran on the rocks of the Azore Islands, was reported to have been engaged by George J. Gould as wireless operator on his private yacht, the Atlanta, which will sail for Europe as soon as she can be coaled. Gould will be a passenger on the yacht and will meet his family in Paris.

EXPEDITION NOW ORDERED TO RETURN

Pekin, June 30.—The American and British legations here have decided that it will be better to have the members of the meteorological expedition under Lieut. Clark, former officer of the American army, return to Pekin as requested by the foreign board.

A full investigation into the encounter between the expedition and natives in Kan Su Province last week, in which Hazrah Ali, a British subject, was killed, was made by the Pekin Government. The British legation has demanded the return of Hazrah Ali's body and that full reparation for his death be made.

PRESIDENT TAFT AT YALE COMMENCEMENT

New Haven, Conn., June 30.—Commencement day at Yale University was especially honored by presence of the chief magistrate of the nation. Wm. H. Taft, '78 who in adherance to precedent as a fellow, donned the robes as a corporation member and walked in the procession which is made up of several hundred officers of the university and the candidates for degrees.

The occasion was one of simplicity of arrangements so far as President Taft was concerned as he in theory at least, laid aside his public duties and during his stay in New Haven, and at the university, was simply a Yale alumnus and a fellow of the corporation.

Cloudburst at Helena

Helena, Mont., June 30.—A cloudburst in the dry gulch above the city and a torrential rain and hailstorm in the city proper gave Helena the worst soaking in its history yesterday. Flumes, fences and other property were destroyed, and the main streets overflowed like rivers.

LARGE STEAMERS FOR WEIR LINE

Two Vessels of London-Orient Route to Be Sent to Transpacific Service

YOSERIC BREAKS IN TWO PARTS

Expected That the Wrecked Liner Will Entirely Break Up in Next Gale

Two of the larger steamers of the Weir fleet used in the London-Suez-Orient service of Andrew Weir & Co. are shortly to be transferred to the transpacific service to replace the Gymeric and Inveric permanently in this trade.

When the new Luseric and Numeric, now being completed at the Port Russel shipyards on the Clyde are completed the Weir line will have six modern ships in this trade. The names of those to be transferred from the London-Orient route have not been received here, but all the vessels engaged are much of the same type, all being modern vessels. The Kumeric and Suveric will be maintained in the service, and probably saloon passenger accommodation and wireless telegraphic equipment will be added to them. The new liners will have saloon accommodation, and be equipped with wireless telegraphic apparatus.

It had been proposed to place the Yoseric in the transpacific trade, and that steamer was on her way out from Philadelphia to Santa Rosalia with instructions to proceed to this port to join the Kumeric and Suveric in the Oriental trade when she struck the sunken wreck of the Valdivia off the Chilian coast and was beached near Lebu, where she proved a total loss.

Advices were received in Victoria yesterday that the wreck of the Weir steamer had broken amidships and further work on her has been given up. Over half the value of the steamer was spent in an effort to salve her by a salvage firm from Conception, Chili, before she was given up as a total loss, being abandoned by the underwriters and offered for sale as she lies. It is expected the steamer will completely break up in the next bad weather.

VADSO RETURNS A FROM THE NORTH

Brought News of Stabbing Affray on Rivers Inlet—Salmon Running Well

The steamer Vadso of the Boscowitz Steamship Company reached port yesterday morning from Naas and way ports of northern British Columbia and was yesterday afternoon hauled out on the ways of the Victoria Machinery Depot to be cleaned and painted. She will sail north again tomorrow night.

Among the passengers of the Vadso was Constable Dufort of the Provincial police and a prisoner a fisherman, charged with stabbing another fisherman during a brawl at one of the Rivers Inlet camps. The prisoner was asleep in his cabin when Rosenburg, another fisherman, came in and being full of exuberance and whisky, proceeded to haul the prisoner from his bunk, handling him roughly. The awakened man drew a knife and stabbed Rosenburg, who was conveyed to the hospital in a serious condition and the stabber was brought to Vancouver for trial.

Among the passengers was George Robertson of Kitamaat; H. Pinder, a land surveyor who has been engaged in the Rivers Inlet district; J. Hansford, who went to Gribbell Island to bring away the machinery from the mine formerly worked there.

News was brought by the Vadso that salmon are running well on the northern rivers, many sockeyes being taken by the netters putting up spring salmon. The steamer brought 91 tierces of spring salmon from the Skeena River.

The steamer Fort Simpson was making her last trip up the Skeena before going to the Stikine when the Vadso left Port Essington. The water was high, but was not interrupting navigation.

The Vadso took north a new boiler for the sternwheeler Craigflower, now operated by Jack McDonnell on the Skeena. Her engines have been strengthened. Capt. Doherty is now in charge of the craft.

Capt. Goulding, of the Vadso brought south a young fawn presented to him by Mr. Cunningham, of Port Essington, which he will probably give to the Park's Board.

SALVAGE FOR RESCUE OFF PALM BRANCH

British Steamer Gets $6,500 for Assistance Rendered to Stranded Vessel at River Plate

The steamer Therapia has been awarded $6,500 salvage for services recently rendered to the British steamer Palm Branch when the steamer stranded near the mouth of the River Plate. When the resuue took place the Therapia was on a passage from Santos to the River Plate. The Palm Branch, which was on a voyage from Chilian ports to Liverpool, was found in difficulties between Lobos and Flores Isles, at the entrance to the River Plate, on April 6th, flying flag signals. She was aground, and the Therapia went to her assistance, and agreed to tow her off the shoal. Two unsuccessful attempts to tow were made. Another attempt was afterwards made to tow the Palm Branch, and two tugs from Monte Video, which had come up, also made fast. The Therapia continued to tow at full power, and the Palm Branch slowly came off, and both vessels proceeded on their voyages. The plaintiffs said the Palm Branch was saved from a position of great peril, where she would probably have been broken up.

The defendans admitted salvage services, but said the nature of them had been exaggerated by the plaintiffs. The Palm Branch (which was valued at £19,000, her cargo at £111,000, and her freight at £2,570) was not in danger of getting further on the bank, and had the benefit of a duly licensed pilot. Ample tug service was available, and if that had not been successful or forthcoming, the cargo would have been lightered.

His Lordship said the values of the salved ship and cargo were high, and made a total award of £1,300, apportioned as follows: The owners, £850; the master, £150; and the crew, £300.

MUDLARK DEEPENS THE UPPER HARBOR

Eighty Thousand Cubic Yards Have Been Removed Above the Railway Bridge

The dredger Mudlark, which has been at work constantly in the upper harbor since the beginning of the year, has in the intervening six months taken out 80,000 cubic yards of mud and silt, and the harbor bottom has been deepened to an average depth of 20 feet. Formerly there was a bank stretching well out, and in places but five feet of water remained after the tide fell. Now since the dredger carved out the 80,000 cubic yards removed to date from the harbor bottom there is a general depth of 20 feet at low water.

KATANGA ARRIVES FROM MEXICO

Steamer Chartered With Tordenskjold by Henry Lund & Co. to Carry Lumber

The steamer Katanga passed to Comox yesterday morning, returning from Guaymas after taking a full cargo of coal to the Mexican port has been chartered by Henry Lund & Co. to carry lumber from Gray's Harbor and will proceed to the Hoquiam mills after bunkering. The Norwegian steamer Tordenskjold has also been chartered by Henry Lund & Co. and when she completes her voyage from Mexico the Norwegian freighter will carry railroad ties to Mazatlan.

ANTILOCHUS LEAVES PORT

Loaded Whale Oil and Lumber at Outer Wharf for the United Kingdom

After loading 3,000 barrels of whale oil and 100,000 feet of lumber at this port, the Blue Funnel Antilochus, Capt. Keay left yesterday afternoon for Seattle. The whale oil is being sent to Glasgow by the Pacific Whaling Company of this city and the lumber is from the Cameron Lumber Company, for the United Kingdom. The steamer Teucer of this line left Yokohama on Monday to complete her voyage from Liverpool to this port. She has a large cargo, including 1,000 tons of general merchandise for this city.

Crew of Grayling.

The officers and crew of the little tug Grayling, which sailed from Seattle May 27, for Panama, and has not been heard from for three weeks, follows: A. A. Moore, master; Charles W. Tuttle, mate; R. J. Lewis, able-bodied seaman; E. R. Welsh, cok; Peter McQuade, chief engineer; C. H. Shubbe, first assistant engineer; James Clark, fireman.

SUVERIC WON RACE WITH TEA

Reached Port Townsend Yesterday—Had Narrow Margin to Land Freight

Winning her race against time to land a big shipment of tea at Seattle before the Payne tariff comes into effect today the steamer Suveric of the Weir line reached Seattle yesterday evening after a quick run from Yokohama. The steamer had scant margin, as her cargo must be landed in order to take advantage of the tariff, which ruled until midnight, and the stevedores worked with energy to get the tea ashore before the clock hands pointed to midnight, saving several thousands of dollars to the importers of the tea cargo.

The steamer Asia of the Pacific Mail line arrived at San Francisco a few days ago with another large tea shipment, having omitted the usual call at Honolulu in order to land her cargo at San Francisco before the Uayne tariff went into effect.

The Suveric left Yokohama four days in advance of her schedule in order to land her cargo. She passed in early yesterday morning, and reached Port Townsend about 9 a. m., proceding to Seattle after passing quarantine at Diamond Head.

ENQUIRY A FIZZLE

Investigations at Marine Department Into Affairs of Capt. Gaudin Brought to End

After many days of time expended while grown-up men pondered over the mystery of what happened to coal scuttles and the idioynrasies of the business of the marine department, the enquiry being held by Lieut. Col. F. B. Gregory, concerning charges made by Capt. Johnston, lightkeeper at the Fisgard light at Esquimalt and A. Schultz, a laborer, has been ended. The finding was not made public, being sent to the Minister of Marine and Fisheries by the Commissioner, but is is understood the agent is vindicated.

Leave in Ballast.

Rather than hold their vessels in idleness until the new crop is ready, owners of the French barks Marie Molinos and Belen have sent their ships away from this coast in ballast. The Marie Molinos made the remarkable passage of forty-five days, in ballast, from Sydney, Australia, to San Francisco, and the next day left out for Iquique seeking cargo. The Belen left in ballast for Newcastle, seeking a coal charter. In the meantime both vessels will be earning under the French subsidy law.

SOCKEYE SEASON OPENED AT MIDNIGHT

Now Lawful to Trap the Fish—Dispute Over Prices on the Fraser River

It is now lawful to take sockeye salmon. The season opened at midnight when the fishermen got out their nets and made ready, but there will not be many fish taken until the middle of the month. Meanwhile the take of spring salmon continues and every day sees scowloads of shining fish brought to the curing plants on the inner harbor where the San Juan Fishing Company and Wesey & Co. are putting up fish for shipment to Europe.

On the Fraser a dispute has arisen between canners and fishermen with regard to prices. The fishermen along the Fraser river and on the Gulf have combined and are asking 15 cents for every sockeye caught during the months of July and August. The cannery association along the coast which comprises practically all the Canning Companies, it is said, are opposed to paying the price asked by the fishermen.

This is the year when the catch is expected to be heavy. As a result the pending trouble between the fishermen and the canning companies is assuming serious proportions. Practically every fisherman along the Fraser river has agreed to hold out for 15 cents. The Japanese fishermen are with the whites in this matter and refuse to fish unless they get their price. Four years ago when there was a heavy run of sockeyes the fishermen were paid ten cents each for fish and this they consider not enough. Last year when sockeyes were comparatively scarce the price went as high as 25 cents. The canneries this year wish to regulate the price according to the supply and demand but the fishermen insist on a fixed price, 15 cents straight.

GRAIN SHIP ON FIRE AT SEA

Invernesshire Put Into Valparaiso on Way to United Kingdom in Distress

The Merchants' Exchange has received advices stating that the British bark Inverness-shire, Capt E. L. Tindall, put into Valparaiso in distress. Fire had broken out in one of the holds while the vessel was at sea and to add to her misfortune she encountered heavy weather. Part of the cargo is damaged and the ship will be surveyed. The date of her arrival at Valparaiso is not given.

The Inverness-shire, wheat laden for the United Kingdom, left Tacoma March 26. She was last spoken April 29 in latitude 8 north, longitude 117 west although twice previously Capt. Tindall succeeded in sending mail ashore telling friend on Puget sound of his progress down the coast. The vessel was foul and was not expected to make as smart time as usual.

The arrival at Cork last Saturday of the British ship Agnes Oswald leaves but two of last season's grain fleet from Puget sound still en route. These are the Carradale, which sailed early in March and is not due for a month.

The Agnes Oswald left Puget sound December 29 and was almost six months negotiating the passage. She was beaten by several days by the British bark Archibald Russell. None of last season's wheat fleet from Puget sound has done fast sailing with the exception of the Genevieve Molinos, Kildalton and Clyde, which arrived under 124 days. A majority of the wheat carriers have been more than 150 days out, several having taken between 175 and 180.

Aorangi is Due.

The steamer Aorangi of the Canadian Australian which left Honolulu on Wednesday last is due from the Antipodes via Suva and Honolulu.

Erna Has Cargo.

According to advices received by Messrs. Gardiner Johnson, agents for the Jebsen line at Vancouver, the Erna is bringing over 1,000 tons of general European cargo from Salina Cruz for this port. She will pick up about 400 tons at San Francisco.

From San Francisco

The steamer City of Pueblo left the outer wharf yesterday morning for San Francisco with 178 passengers of whom 23 embarked at this port. The steamer Queen, now due, has 147 tons of cargo to discharge at the outer wharf.

Ariadne Ready

The yacht Ariadne bought by Spence Hudson of Alert Bay for service in northern waters, conveying hunting parties, timber cruisers and others, will leave for Seattle in a day or two and thence goes to Alert Bay. R. Stevens has just completed a new stern for the vessel.

AORANGI IS DUE FROM ANTIPODES

Left Honolulu on Wednesday Last on Her Way to Victoria From Sydney.

The R. M. S. Aorangi of the Canadian-Australian line is due from Sidney via Brisbane, Suva and Honolulu. The liner left Honolulu on Wednesday last to complete the last leg of her voyage to Victoria. She has a good complement of passengers and a small cargo, consisting of the usual shipments of frozen mutton, hides, timber, jam, etc.

FATAL AUTO WRECK

Prominent Montreal Merchant Almost Instantly Killed—Other Men Injured

Montreal, June 29.—W. C. McIntyre, head of the big drygoods firm of McIntyre, Son and Co., one of the leading younger business men of Montreal, was almost instantly killed this evening in an auto accident on the Lake Shore road at Dixie, ten miles above the city.

With him at the time were Percy Cowans, a well-known broker, W. S. Weldon, manager of the Windsor hotel, and the chauffeur. Mr. Cowans was injured internally and Mr. Weldon severely shaken up, while the chauffeur escaped unhurt.

The party had been out at the Forest and Stream Club for dinner and were returning to the city. Opposite the Royal Montreal Golf Club, the auto, running at a good gait, passed another. Getting back into the middle of the road again with the big machine it skidded, and the gear part crashed into a telephone pole. The force of the impact was so great that the pole was cut off short and the machine overturned.

When the people in the auto which had just been passed reached the spot Mr. McIntyre was found lying with the pole across his back. He was still breathing, but expired before he could be removed to the golf club. Mr. Cowans and Mr. Weldon were both insensible. The former was brought into the city and taken to a hospital, where it was found that several ribs had been broken and that he had sustained internal injuries.

LOOK FOR SOME FIRMER PRICES

First Quality Strawberries Being Rapidly Cleaned Up—Local Produce Prices

With the crop of No. 1 strawberries about all marketed local dealers are looking for a slight advance in prices though no advance is expected in No. 2 quality, preserving berries, which are coming in in good quantities and prices will hold for some time at the present figure. First quality strawberries are now retailing at two pounds for 25c. and preserving berries at 10 cents per pound. Local cherries are now arriving in liberal quantities though the quality can only be said to be fair as yet, the earliest arrivals never being of as high a quality as the later berries. Present prices are quoted at two pounds for 25 cents at which figure local gooseberries are also selling. Arrivals of the latter fruit are falling off as the fruit is almost all cleaned up.

California apricots, plums and peaches are now arriving in good quantities and each shipment shows an improvement in quality. Plums and apricots retail at from 40 to 50 cents per basket and peaches at two pounds for 25 cents. Nutmeg melons from the south are now on sale at from 5 to 20 cents each according to size.

Dealers are expecting the first of the new local grown apples to make their appearance on this market shortly though none have arrived as yet. The demand is being met by imported stuff and by a small quantity of last year's local product of good quality for this time of the year. Prices are quoted at three pounds for 25 cents.

All seasonable vegetables are now offering for sale. Rhubarb is getting scarce and prices are firmer at six pounds for 25 cents. Cucumbers of good quality are selling at 10 to 15 cents each and hot house tomatoes at from 15 to 25 cents each, according to quality and size.

Old potatoes are cleaned up and owing to the non-arrival of the expected California shipment there was almost a famine last week but the last boat from San Francisco brought in a large shipment. The supply of local grown potatoes of this year's crop is coming in in limited quantities and retails at 5 cents per pound or six pounds for 25 cents, while the California product sells at eight pounds for 25 cents.

In dairy products prices remain unchanged at the level of the past few weeks and in other lines of produce prices are the same except in mill stuffs which have advanced following the closing down of many of the smaller interior mills owing to the high price of wheat. As a result the production of mill stuffs has been curtailed. Local retail prices are as follows:

Flour.

Royal Household a bag	$ 2.00
Lake of the Woods, a bag	2.00

NEW YORK STOCK MARKET.

(Furnished by F. W. Stevenson & Co.)

New York, June 30.—The approaching holidays showed their influence in the dullness during the day and after an early display of strength considerable realizing took place, causing an irregular closing but the tone of the market was good and indicative of supporting orders. Profit taking in Steel stocks was noted but reports from Pittsburg indicate that consumers are displaying a tendency to supply needs far in advance. The Harriman issues also not bulled aggressively still met with much favor among the traders and it is thought that after July first activity in these issues will become pronounced.

CHICAGO GRAIN AND PROVISIONS.

(Furnished by F. W. Stevenson & Co.)

Chicago, June 30.—Wheat—there was good action in wheat early and late. Bears found some encouragement in the cable from Liverpool. The cable news from Russia is bearish. Most of the news of the day was on the side of the buyers but the trade had to overcome a lot of profit-taking and some July realizing as a result of the sharp advance of yesterday and the higher prices established for several days past. Weather is altogether too wet over harvest sections in Ohio, Illinois, Missouri and Kansas. Reports on yields are fairly liberal. Allowing for healthy reactions we feel friendly to the buying side of the distant months.

Corn—It has been almost constant covering on the part of certain shorts in July and September corn for two days. The buying of corn today, however, was by clever people in the trade who evidently have misjudged the attitude of the country in regard to parting with reserves. When the covering lets up the market should have temporary reaction and a good break will make a good price for buyers to take hold again.

Oats—Rains or storms may easily work damage to the crop. The market is likely to follow the course of corn very closely.

Provisions—The most remarkable advance yet recorded in pork took place this morning there was a little reaction at the close to about Tuesday's final figures. Lard and ribs followed the advance in first selling 5 cents over the close of yesterday. Brokers for packers helped the advance and then sold enough to cause the reaction.

NEW YORK COTTON MARKET.

(Furnished by F. W. Stevenson & Co.)

New York, June 30.—The cotton market served no purpose better than that of demonstrating that the market did not really want to decline. Prices did not crumble and the market seems to have stripped itself preparatory to the government figures. Both Miss Giles and Nodden showed a decline for the month of about 4 to 4½ points. The professional trade do not care much about nor do they attempt to look further ahead than tomorrow and the extreme bullishness of the situation has not yet permeated their pericraniums and they ridicule the suggestion that this is a situation where two million bales might be lost when compared with last year. There is an immense amount of cotton to be bought back and very little cotton to be sold on July bureau report. 12 cent level is possible within a week. The 11 cent level is a dream of the past.

The United States annually produces more tobacco than any other country in the world—690,000,000 out of 2,201,000,000 pounds.

BOSTON COPPER MARKET.

(Furnished by F. W. Stevenson & Co.)

Boston, June 30.—London came very weak this morning but the opening in this country was strong and the first hour some issues showed good advances. The market then turned a little ragged for the balance of the session. The buying of Superior and Boston looks especially good and the stock is gradually creeping up.

MAKE AUTO RACE AN ANNUAL EVENT

Seattle, June 30.—The New York to Seattle automobile race will be a regular annual event, according to M. Robert Guggenheim, donor of the transcontinental trophy that has just been competed for. Mr. Guggenheim stated last night that the success of the first ocean to ocean contest, which was won by the Ford car subject to a protest of the Shawmut entry, had decided him to make the race the feature event of the motoring year, and that he would see that the race was repeated in 1910.

"But for a number of unforseen and unfortunate complications thirty cars instead of five would have taken part in the run just finished," said Mr. Guggenheim, "and I am confident that next year the manufacturers will cooperate in every way to make the contest the greatest in the history of motoring. I would not be surprised to receive entries of fifty cars for the 1910 race."

TOM LAWSON'S DAUGHTER WEDS

Boston, June 30.—Boston is immensely interested today in the marriage of Miss Marion Lawson, second daughter of Thomas Lawson, to James Fuller Lord, a Chicago clubman and whip.

The match meets with the hearty approval of her father. Both being lovers of horses, Miss Lawson and her fiance won many prizes at shows in and about Chicago, and she is particularly known as a wonderful driver. When her father was competing in all fashionable horse shows of the country, Miss Lawson drove nearly all the horses entered by him.

Lord is a member of several driving clubs of Chicago. It was at a run of one of the clubs that the couple first met.

LIKED NAME BUT IT COST TOO MUCH

New York, June 30.—"I love my name, Judge, but it costs me lots of money to keep it," John Vincent Smolensky told Judge Guy in the Supreme Court in support of an application to have his name changed to John Vincent Smolen.

Mr. Smolensky, who is a member of the building contracting firm of J. Harry Nicholson & Co., said that owing to the oddity of his name he had lost at least $100,000 a year for five years.

"The name," he said, "interferes with my business progress, frequently and continuously preventing me from procuring interviews with persons who have valuable building contracts to give out. In fact, entree into business circles is practically closed to me because of this name."

Mr. Smolensky gave the court the history of his life after which Judge Guy granted his application.

MURDERER WILL BE SENT TO THE CHAIR

Napoleon Monat, Who Killed John Kliff, Will Be Executed Next Month.

Poughkeepsie, N.Y., June 30.—In the Supreme Court here yesterday morning Justice Tompkins sentenced Napoleon Monat to be executed in Sing Sing prison during the week of August 9. Monat was convicted on Monday night of murder in the first degree for killing John Kliff, a restaurant keeper at Hopewell Junction, last January.

Sentence was passed while a jury was being drawn to try George Conrow for complicity in the same crime. Conrow is indicted for murder in the first degree. Monat struck the first blow which killed Kliff and took $525 from under Mrs. Kliff's pillow. His defense was that he was weak minded and Conrow induced him to commit the crime. Conrow's defense, it is understood, will be that he had no knowledge of the crime before it's commission. Conrow's young wife sat by his side and showed much agitation when the death sentence was passed.

PROFESSOR BELL GOES TO PETEWAWA

Ottawa, June 30.—Professor Alexander Graham Bell, inventor of the "Silver Dart" aerodrome, arrived in the city from Baddeck, N. S., the scene of his series of aerodrome experiments, "Casey" Baldwin, who has been associated with Professor Bell in the Baddeck, tests, also arrived yesterday from Petewawa, where he has spent the past ten days in preparing for a series of flights.

Professor Bell and Mr. Baldwin left the city very quietly last evening, telling no one whither they were bound. It is understood, however, that they have gone to Petewawa to complete preparations for the airship tests.

WINNIPEG PREPARES FOR THE SCIENTISTS

Winnipeg, June 30.—Preliminary preparations for the meeting of the British Association for the Advancement of Science in Winnipeg next August are nearing completion. Under the ruling that all papers to be read at the meeting should be in the hands of the local secretaries not later than today, the program will soon be ready and will be forwarded to London to receive the sanction of the home officials. Reports from London state that many of the most distinguished savants of Great Britain and the colonies will be here for the meeting, which promises to be the greatest gathering of scientific men ever held on the North American continent.

DEADLY WEAPONS DROPPED IN LAKE

Chicago, June 30.—Nearly 600 deadly weapons which the police have confiscated in the past six months will be cast into the lake today. The city tug will take the police department custodian beyond the three-mile limit and he will drop overboard the revolvers, dirks, slingshots, knives and other dealy weapons in thirty feet of water. This disposition of the weapons is prescribed by the city code.

Sigma Chi Frat.

Chicago, June 30.—Solemn youths and frovilous baldheads from many states met today at the annual Sigma Chi Fraternity reunion.

Ban on Slot Machines.

San Francisco, June 30.—Nickel-in-the-slot machines will be banished from San Francisco after today, under a new ordinance.

Wesleyan Commencement.

Middletown, Conn., June 30.—Final commencement exercises were held today at Wesleyan University. President-elect Shanklin will formally assume his executive duties tomorrow, succeeding Acting President Rice.

Floating Hospital

Boston, June 30.—Boston's floating hospital resumed its daily sallings for the summer today, which greatly enlarged facilities for the care of the mothers and sick children who will take advantage of its hospitality. Several physicians and a corps of sixty nurses are in charge of the vessel.

Railway Officials Resign

Norfolk, Va., June 30.—W. A. Garrett, president of the Seaboard Air Line, formally severed his connection with that road today, and will be succeeded by C. H. Hix, general superintendent of the line. Mr. Garrett will become vice-president of a Baltimore concern engaged in the manufacture of railroad specialties.

L. Sevier's resignation as traffic manager of the Seaboard also went into effect today. He will go to Birmingham as freight traffic manager of the Queen and Crescent road.

O'Connell's Silver Jubilee.

Boston, June 30.—Exercises of an elaborate character marked the celebration today of the silver jubilee of the ordination to the priesthood of Archbishop O'Connell, who recently returned from Rome. A solemn pontifical high mass, of which the archbishop was celebrant, was held in the cathedral this morning. All of the leading priests of the diocese were present. A jubilee offering from the laity of the diocese will be presented to the archbishop at a great meeting in Mechanics building this evening.

Is Now President Emeritus.

Cambridge, Mass., June 30.—Former President Charles W. Eliot, of Harvard University, has been elected President Emeritus of the institution, according to an announcement made yesterday. The honor was bestowed on Dr. Eliot by the Harvard Corporation at the regular meeting. It was stated last night that there is a stipend connected with the honorary office based on a percentage of his salary as president, but the amount was not made public.

Coal Company Incorporated

Trenton, N. J., June 30.—The Delaware, Lackawanna & Western Coal Co. filed articles of incorporation here today. The authorized capital stock of the company is $6,000,000. The incorporators are J. Edward Loomis and William Fahrenstock, of Hoboken, N. J., and Percy R. Pine, of Princeton, N. J.

Births, Marriages, Deaths

DIED.

KEAYS—Mrs. Keays, wife of G. H. Keays, and daughter of Mr. and Mrs. John Carron, died last evening at St. Joseph's Hospital, after an illness of little over a week. The deceased was a native of Victoria and 51 years of age. She leaves to mourn her loss her husband, one infant child, her father, mother, two sisters, Mrs. A. Westendale and Mrs. H. Levitt, and also two brothers, Dan and Peter Carron of this city.

Funeral will leave W. B. Smith's parlors. Mass will be celebrated at St. Andrew's Cathedral on Friday morning at 9 o'clock, and the funeral will take place immediately afterwards in Ross Bay cemetery.

WOLLASTON—In this city on June 30, 1909, at the residence of his son, Percy Wollaston, Jr., 1732 Oak Bay Ave., Percy Wollaston, aged 83 years, a native of Leeds, England.

The funeral will take place from the above address on Friday, July 2nd, at 10:30 a. m. and 11 o'clock at Christ Church Cathedral.

Interment in Ross Bay cemetery.

Friends will kindly accept this intimation.

CARMICHAEL—At Whannock, B. C. Monday, the 28th inst., Mrs. Susannah Carmichael, relict of the late Neil Carmichael, aged 77.

Notice of funeral later.

The funeral will take place on Friday, July 2nd, at 2:30 p. m., from the chapel of The B. C. Funeral Furnishing Co., 1016 Government street.

Friends will please accept this intimation.

NOTICE TO CREDITORS

In the Matter of the Estate of Mary Jamieson, late of the City of Victoria, Deceased.

Notice is hereby given that all persons having any claim or demand against the late Mary Jamieson, who died on the 6th day of March, 1909, at Victoria, B. C., are required to send by post, prepaid, or to deliver to the undersigned, the administrator of the estate, their names and addresses and full particulars in writing of their claims, duly verified, and particulars of the nature of the securities (if any) held by them.

And take notice that, after the 15th day of July, 1909, the said administrator will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which due notice shall have been given, and that the said administrator will not be liable for the said assets, or any part thereof, so distributed to any person of whose claim he shall not then have received notice.

Dated at Victoria, B. C., this 16th day of June, 1909.

E. CROW BAKER,
Administrator.

Canadian Bank of Commerce Building, Victoria, B. C.

CANCELLATION OF RESERVE.

Notice is hereby given that the Reserve existing on Crown lands in the vicinity of Babine Lake, Range 5, Coast District, notice of which was published in the British Columbian Gazette of the 17th December, 1908, is cancelled in so far as it relates to lots No. 1,463 to 1,500, both inclusive, Range 5, Coast District.

ROBERT A RENWICK,
Deputy Commissioner of Lands.
Lands Department,
Victoria, B. C., June 5, 1909.

Department of Works.

NOTICE TO CONTRACTORS.

Metal Work Suspension Bridge, Lillooet

Sealed tenders, superscribed "Tender for Metal Suspension Bridge, Lillooet, B. C.," will be received by the Hon. the Minister of Public Works up to noon of Saturday, the 10th July, 1909, for the cables and metal required in connection with a Suspension Bridge over the Fraser river, to be delivered at Lytton, B. C.

Drawings, specifications, contract and forms of tender may be seen on and after the 24th day of June, 1909, at the office of the undersigned, Victoria, B.C., or at the office of R. J. Skinner, timber inspector, Vancouver, and at the office of the Government Agent, New Westminster.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honorable Minister of Public Works in a sum of five hundred dollars, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificate of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

F. C. GAMBLE,
Public Works Engineer.
